Spiritual Finance:

Spiritual Finance Sheldon Zeiger, 2002 *Organic Finance* Atul K. Shah, 2025-06-11 Modern finance science is profoundly broken and damaging morally and culturally. It has no choice but to change its theory and pedagogy, but the question is how and in what ways. We urgently need to see the world from a very different, kinder, gentler, and more caring paradigm. In truth, the planet is bio-diverse and so is society with a huge tapestry of faiths, customs, beliefs, and practices in finance. A holistic approach is urgently needed. This book builds a new, un-anthropocentric, moral, and sustainable finance from the ground up, helping students, professionals, and scientists to reconstruct the knowledge and connect it to indigenous beliefs and timeless wisdom. An interdisciplinary, nontechnical approach is adopted. Respect for all living beings, the protection of forests, soil, and soul, and the importance of trust, culture, and relationships are critical to building harmonious communities. Examples and techniques to re-engineer finance science are offered throughout the book. Integral Finance - Akhuwat Muhammad Amjad Saqib, Aneeqa Malik, 2018-09-21 There are many misconceptions and concerns regarding Islamic societies and how Muslim countries have failed to come up with their own localised solutions to socio-economic problems in dealing with poverty alleviation and societal development. This book explores why there is so much disconnect between spirituality and enterprise development in the world today and how a part of the Islamic world, in fact located in Pakistan, can be part of the solution rather than being central to the problem. This book builds upon Ronnie Lessem and Alexander Schieffer's theory of integral dynamics, which works through a fourfold rhythm of the GENE Set against a mono-cultural perspective. The authors highlight the ever-increasing and deepening divide between Western and Islamic cultures. Through the course of the book, the authors use the transformational GENE Grounding Emergence Navigation Effect rhythm developed by Lessem and Schieffer to take readers through the 4C Call Context Co-creation and Contribution process articulated to CAREing 4 Society. They ground their call in Akhuwat's community of Akhuwateers, donors, beneficiaries, borrowers, volunteers, and replicators to explore alternative models of spiritually based finance through an emerging SOUL idarity paradigm. Furthermore, through these models and Akhuwat's CARE Community Awareness Research Embodiment process, they put forward that encouraging community activism, raising awareness around Islamic practices of Qard e Hasan, institutionalising their innovative research, and finally transforming and educating the community will provide an alternative to microfinance for poverty alleviation. Showcasing an unconventional spiritual financial solution deeply immersed in spirituality and infused with local moral values and traditions, this book demonstrates how poverty can be alleviated in countries around the world, specifically in developing Muslim countries.
