**A Catholic Spirituality for Business** Martin Schlag, Domenc Mele, 2019 Spirituality and gift are notions that are en vogue Topics such as spirituality at the workplace spirituality management spirituality in leadership organizational spirituality and other related topics are trending in management literature The logic of gift is also appearing more frequently especially in attempts to rethink the way our economy works in order to include the marginalized

The expression logic of gift was introduced into official Catholic social teaching by Pope Benedict XVI who presented it in association with the principle of gratuitousness which in turn is an expression of fraternity However before Caritas in Veritate and ever since Marcel Mauss's groundbreaking work *The Gift* the importance of gift for human relationships and for the cohesion of society had been increasingly recognized Alain Caill and Jacques T Godbout further fleshed out the implication of gift for contemporary society in the context of secular social sciences striving to overcome utilitarianism It was the civil economy movement however that exercised greatest influence on Benedict XVI's encyclical *Caritas in Veritate*

This present volume reflects on the general scope of these notions for business and society This is done by structuring the book in two parts each dedicated to one of the two concepts Each part has two general chapters and two that apply the notions to business and to business education The authors are a mix of well known emeritus professors and younger talented emerging scholars We have also been careful to combine European with American authors
