

Divine Timing

Everything that happens in life is perfectly aligned by a divine force, once you start believing in that higher power you realize that control is an illusion. This does not mean that you don't take any action and just sit on your couch all day long, it simply means you accept life as it is, you don't try to force things to happen. You don't flow against the current of the river, you flow with the river. You start living life effortlessly with awareness of each moment because you realize everything is connected. There may be somethings that may feel really bad right now, but in the future you realize those bad times made you a strong person. So trust the divine timing of life, nothing is a coincidence in this Universe, everything is aligned and connected.
