**The Statecraft of Machiavelli, by H. Butterfield...** Sir Herbert Butterfield,1962 *After the Enlightenment* Nicolas Guilhot,2017-04-24 After the Enlightenment is the first attempt at understanding modern political realism as a historical phenomenon Realism is not an eternal wisdom inherited from Thucydides Machiavelli or Hobbes but a twentieth century phenomenon rooted in the interwar years the collapse of the Weimar Republic and the transfer of ideas between Continental Europe and the United States The book provides the first intellectual history of the rise of realism in America as it informed policy and academic circles after 1945 It breaks through the narrow confines of the discipline of international relations and resituates realism within the crisis of American liberalism Realism provided a new framework for foreign policy thinking and transformed the nature of American democracy This book sheds light on the emergence of rational choice as a new paradigm for political decision making and speaks to the current revival in realism in international affairs
