transracial and international adoptions Kinship by Design ultimately situates the practice as both a different way to make a family and a universal story about love loss identity and belonging In doing so this volume provides a new vantage point from which to view twentieth century America revealing as much about social welfare statecraft and science as it does about childhood family and private life Adopting for God Soojin Chung,2021-12-14 Adopting for God is the first historical study to focus on the role of adoption evangelists in the transnational adoption movement between the United States and East Asia It shows how both evangelical and ecumenical Christians challenged Americans to redefine traditional familial values and rethink race matters **The Best Possible Immigrants** Rachel Rains Winslow,2017-04-07 Prior to World War II international adoption was virtually unknown but in the twenty first century it has become a common practice touching almost every American How did the adoption of foreign children by U S families become an essential part of American culture in such a short period of time Rachel Rains Winslow investigates this question following the trail from Europe to South Korea and then to Vietnam Drawing on a wide range of political and cultural sources *The Best Possible Immigrants* shows how a combination of domestic trends foreign policies and international instabilities created an environment in which adoption flourished Winslow contends that international adoption succeeded as a long term solution to child welfare not because it was in the interest of one group but because it was in the interest of many Focusing on the three decades after World War II she argues that the system came about through the work of governments social welfare professionals volunteers national and local media adoptive parents and prospective adoptive parents In her chronicle Winslow not only reveals the diversity of interests at play but also shows the underlying character of the U S social welfare state and international humanitarianism In so doing she sheds light on the shifting ideologies of family in the postwar era underscoring the important cultural work at the center of policy efforts and state projects *The Best Possible Immigrants* is a fascinating story about the role private citizens and organizations played in adoption history as well as their impact on state formation lawmaking and U S foreign policy *The Family* ,1922 *The Birth Control Review* Margaret Sanger,1930 *Success* ,1924 Practical English, a Scholastic Magazine ,1957 **Catalog of Sears, Roebuck and Company** Sears, Roebuck and Company,1956 **The flower of the family, by the author of 'Little Susy's six birth days'.
