The Figure:

The Figure of Modernity Tilo Schabert,2020-09-21 Two words describe a modern world limits and limitless Traditionally humans recognized limits of their power Modernity meant a break Its protagonists aspired to bring worlds of their imagination into reality They taught a new anthropology Humans could ascend to a God like status Schabert analyzes the history of the project and its result a civilization in a perennial crisis Symptoms of the crisis have been exposed today mostly in ecological terms Schabert takes his material from many fields philosophy cosmology natural sciences literature social studies economics architecture and political thought While modernity is endlessly disrupted a world beyond modernity can be traced especially in the modern theory of constitutional government Constitutional governments are formed by limitations within a civilization that is meant to have no limits What appears to be paradoxical has its own logic as Baruch Spinoza John Locke Montesquieu John Adams the Federalist Papers John Stuart Mill Walter Bagehot and Woodrow Wilson have shown Schabert carefully explicates their constitutional thought It realized the limits through which modernity holds a promise On The Figure In General And The Body In Particular Nicole Brenez,2023-07-11 Films fill our imagination with figures figurines and talismans They ceaselessly rework the same archetypes and invent troubling prototypes especially when they establish a deeper relationship to reality How do we understand these presences that are both so characteristic and so diverse in cinema How does film deal with bodies movements and gestures Why are we so drawn to these shadows silhouettes and hypothetical beings What organizes the figurative values at work in a film How do cinematic creatures circulate from film to film and image to image How does film articulate the links between the abstract and figurative Is it possible to write a history of figurative forms Starting from films themselves and works that are both classical Sergei Eisenstein Roberto Rossellini Orson Welles and contemporary Abel Ferrara Brian DePalma Patricia Mazuy celebrated Robert Bresson John Cassavetes Ken Jacobs Paul Sharits and overlooked Al Razutis Jean Genet Monte Hellman and John Travolta from auteurs as well as aesthetic questions representations of dance the naked body character development the essays in this volume most available for the first in English aim to open a field that has been neglected by analysis while also suggesting the tools necessary to understanding figurative phenomena specific to cinema **The Figure in Composition** Paul G. Braun,2013-04-09 A valuable tool for intermediate artists this volume treats the figure as a unit in the overall composition of a sketch or drawing Discusses light and shade draped figures folds movement much more **The Figure of Abraham in John 8** Ruth Sheridan,2020-01-09 In the Gospel of John the character of Jesus repeatedly comes into conflict with a group pejoratively designated as the Jews In chapter 8 of the Gospel this conflict could be said to reach a head with Jesus labeling the Jews as children of the devil 8 44 a verse often cited as epitomizing early Christian anti Judaism Using methods derived from modern and post modern literary criticism Ruth Sheridan examines textual allusions to the biblical figures of Cain and Abraham in John 8 1 59 She pays particular attention to how these allusions give shape to the Gospel s

alleged and infamous anti Judaism exemplified in John 8 44 Moreover the book uniquely studies the subsequent reception in the Patristic and Rabbinic literature not only of John 8 but also of the figures of Cain and Abraham It shows how these figures are linked in Christian and Jewish imagination in the formative centuries in which the two religions came into definition
