Transitional Justice:

Searching for Truth in the Transitional Justice Movement Jamie Rowen, 2017-08-11 This book re imagines transitional justice as a movement and explains why truth commissions are promoted and created By exploring how the movement developed as well as efforts to create truth commissions in the Balkans Colombia and the US it examines the processes through which political actors translate transitional justice into political action

Transitional Justice Ruti G. Teitel, 2000-06-29 At the century s end societies all over the world are throwing off the yoke of authoritarian rule and beginning to build democracies At any such time of radical change the question arises should a society punish its ancien regime or let bygones be bygones Transitional Justice takes this question to a new level with an interdisciplinary approach that challenges the very terms of the contemporary debate Ruti Teitel explores the recurring dilemma of how regimes should respond to evil rule arguing against the prevailing view favoring punishment yet contending that the law nevertheless plays a profound role in periods of radical change Pursuing a comparative and historical approach she presents a compelling analysis of constitutional legislative and administrative responses to injustice following political upheaval She proposes a new normative conception of justice one that is highly politicized offering glimmerings of the rule of law that in her view have become symbols of liberal transition Its challenge to the prevailing assumptions about transitional periods makes this timely and provocative book essential reading for policymakers and scholars of revolution and new democracies

International Journal of Rule of Law, Transitional Justice And Human Rights , Transitional Justice in Nepal Yvette Selim, 2018-06-27 The conflict in Nepal 1996 2006 resulted in an estimated 15 000 deaths 1 300 disappearances along with other serious human rights and humanitarian law violations Demands for peace democracy accountability and development have abounded in the post conflict context Although the conflict catalysed major changes in the social and political landscape in Nepal the transitional justice TJ process has remained deeply contentious and fragmented This book provides an in depth analysis of transitional justice process in Nepal Drawing on interviews with a diverse range of stakeholders including victims ex combatants community members human rights advocates journalists and representatives from diplomatic missions international organisations and the donor community it reveals the differing viewpoints knowledge attitudes and preferences about TJ and other post conflict issues in Nepal The author develops an actor typology and an action spectrum which can be used in Nepal and other post conflict contexts The actor typology identifies four main groups of TJ actors experts brokers implementers and victims and highlights who is making claims and on behalf of whom The action spectrum based on contentious politics literature and resistance literature demonstrates the strategies actors use to shape the TJ process This book argues that the potential of TJ lies in these dynamics of contention It is by letting these dynamics play out that different conceptualisations of TJ can arise While doing so may lead to practical challenges and produce situations that are normatively undesirable for some actors particularly when certain political parties and national actors seem to hijack TJ

remaining steadfast to the dominant TJ paradigm is also undesirable As the first book to provide a single case study on TJ in Nepal it makes theoretical and empirical contributions to TJ research in Nepal and the Asia Pacific more broadly the politics versus justice binary and the concept of victimhood among others It will be of interest to a wide range of scholars in the study of transitional justice peace and conflict studies human rights sociology political science criminology law anthropology and South Asian Studies as well as policy makers and NGOs

Transitional Justice Neil J. Kritz, 1995 Foreword Nelson Mandela

Transitional Justice Theories Susanne Buckley-Zistel, Teresa Koloma Beck, Christian Braun, Friederike Mieth, 2013-10-30 *Transitional Justice Theories* is the first volume to approach the politically sensitive subject of post conflict or post authoritarian justice from a theoretical perspective It combines contributions from distinguished scholars and practitioners as well as from emerging academics from different disciplines and provides an overview of conceptual approaches to the field The volume seeks to refine our understanding of transitional justice by exploring often unarticulated assumptions that guide discourse and practice To this end it offers a wide selection of approaches from various theoretical traditions ranging from normative theory to critical theory In their individual chapters the authors explore the concept of transitional justice itself and its foundations such as reconciliation memory and truth as well as intersections such as reparations peace building and norm compliance This book will be of particular interest for scholars and students of law peace and conflict studies and human rights studies Even though highly theoretical the chapters provide an easy read for a wide audience including readers not familiar with theoretical investigations

Routledge Handbook on Human Rights and the Middle East and North Africa Anthony Chase, 2016-11-10 Recent events such as Iran's Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region's on the ground politics transnational intellectual debates and global political intersections The *Routledge Handbook on Human Rights and the Middle East and North Africa* emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe

This research paper exemplifies the contribution of the Extraordinary Chambers in the Courts of Cambodia ECCC to the establishment of a hybrid tribunal model as an instrument for prosecuting serious criminal offenses committed systematically during conflicts The research sphere is demarcated by the world's 3rd hybrid tribunal novelty and its participation in the advancement of a hybrid tribunal model as internationalized judicial instrument of correction of those atrocities against humanity that were committed methodically with political purposes in times of authoritarian regimes or armed conflicts of different origin The interest arises from the awareness that by entering into force of the International Criminal Court in The Hague ICC in 2002 a shift of significance has taken place from the international level back to the domestic one in dealing with serious crimes In the context of radical changes the ECCC comes to strengthen the hybrid tribunal instrument as a judicial organization form with multidimensional benefits and to offer it sustainability to the advantage of other post conflict societies
