## **Whats Wrong With This:**

What's Wrong with the United Nations and How to Fix it Thomas G. Weiss, 2009 Six decades after its establishment the United Nations and its system of related agencies and programs is perpetually in crisis While World War I and World War II gave rise to ground breaking efforts at international organization in 1919 and 1945 the UN today seems ill equipped to deal with modern challenges to world order Neither the end of the Cold War nor the aftermath of 9 11 has led to the creation of a next generation of multilateral institutions But what exactly is wrong with the UN and how can we fix it Is it possible to retrofit the world body In this succinct and illuminating analysis Thomas G Weiss takes a diagnosis and cure approach to the world organization s inherent difficulties In the first half of the book he considers the problems of international leadership and decision making in a world of self interested states the diplomatic difficulties caused by the artificial divisions between the industrialized North and the global South the structural problems of managing the UN s many overlapping jurisdictions agencies and bodies and the ever demanding challenges of bureaucracy and leadership The second half examines how to mitigate these maladies and points the way to a more ideal world in which the UN s institutional ills might be cured His remedies are not based on pious hopes of a miracle cure for the UN but rather on specific and encouraging examples that could be replicated With considered optimism and in contrast to received wisdom Weiss contends that substantial change in intergovernmental institutions is plausible and possible This indispensable book will spark debate amongst students scholars and policy makers concerned with international politics as well as anyone genuinely interested in the future of the United Nations and international cooperation

**What's Wrong with Addiction?** Helen Keane, 2002 This is an impressive work carefully structured researched and written a refreshingly lucid account that is both intellectually stimulating and professionally helpful Janet McCalman Addicts are generally regarded with either pity or grave disapproval But is being addicted to something necessarily bad These attitudes are explicit both in contemporary medical literature and in popular self help texts We categorise addiction as unnatural diseased and self destructive We demonise pleasure and desire and view the addict as physically and morally damaged Helen Keane s thought provoking text examines these assumptions in a new light In asserting that the wrongness of addiction is not fixed or indeed obvious she presents a refreshing challenge to more conventional accounts of addiction She also investigates the notion that people can be addicted to eating love and sex just as they are to drugs and alcohol What s Wrong with Addiction shows that most of our ideas about addiction take certain ideals of health and normality for granted It exposes strains in our society s oppositions between health and disease between the natural and the artificial between order and disorder and between self and other

What's Wrong with Keynesian Economic Theory? Steven Kates, 2016-08-26 Possibly the strangest phenomenon in all of economics is the absence of a long tradition of criticism focused on Keynesian economic theory Keynesian demand management has been at the centre of some of the worst economic outcomes in history from the great stagflation of the 1970s to the lost decade and more in Japan following the

expenditure program of the 1990s And once again following the Global Financial Crisis it is incontrovertible that no stimulus program in any part of the world has been a success each one having been abandoned as conditions deteriorated under the weight of public sector spending This book brings together some of the most vocal critics of Keynesian economics Each author attempts to explain what is wrong with Keynesian theory in ways that can be understood by those seeking guidance on where to turn for a more accurate explanation of the business cycle and on what to do when recessions occur What's Wrong With Sociology?
