Schell, 2013-12-03 Tony Gwynn is the greatest hitter in the history of baseball That's the conclusion of this engaging and provocative analysis of baseball's all time best hitters Michael Schell challenges the traditional list of all time hitters which places Ty Cobb first Gwynn 16th and includes just 8 players whose prime came after 1960 Schell argues that the raw batting averages used as the list's basis should be adjusted to take into account that hitters played in different eras with different rules and in different ballparks He makes those adjustments and produces a new list of the best 100 hitters that will spark debate among baseball fans and statisticians everywhere Schell combines the two qualifications essential for a book like this He is a professional statistician applying his skills to cancer research and he has an encyclopedic knowledge of baseball He has wondered how to rank hitters since he was a boy growing up as a passionate Cincinnati Reds fan Over the years he has analyzed the most important factors including the relative difficulty of hitting in different ballparks the length of hitters careers the talent pool that players are drawn from and changes in the game that raised or lowered major league batting averages the introduction of the designated hitter and changes in the height and location of the pitcher's mound for example Schell's study finally levels the playing field giving new credit to hitters who played in adverse conditions and downgrading others who faced fewer obstacles His final ranking of players differs dramatically from the traditional list Gwynn for example bumps Cobb to 2nd place Rod Carew rises from 28th to 3rd Babe

Ruth drops from 9th to 16th and Willie Mays comes from off the list to rank 13th Schell's list also gives relatively more credit to modern players containing 39 whose best days were after 1960 Using a fun conversational style the book presents a feast of stories and statistics about players ballparks and teams all arranged so that calculations can be skipped by general readers but consulted by statisticians eager to follow Schell's methods or introduce their students to such basic concepts as mean histogram standard deviation p value and regression Baseball's All Time Best Hitters will shake up how baseball fans view the greatest heroes of America's national pastime STATS Baseball Scoreboard, 1997 John Dewan, STATS Inc, Don Zminda, 1997-03-01 STATS Baseball Scoreboard 2000 STATS Inc, 2000-03 The 11th edition of the Baseball Scoreboard offers more insightful colorful and creative articles than ever before while bringing statistics to life Includes questions and answers about pitching hitting and defense as it analyzes the major leagues Charts **The STATS 1992 Baseball Scoreboard** John Dewan, 1990 Beyond Batting Average Lee Panas, 2010 Over the past few decades a multitude of advanced hitting pitching fielding and base running measures have been introduced to the baseball world This comprehensive sabermetrics primer will introduce you to these new statistics with easy to understand explanations and examples It will illustrate the evolution of statistics from simple traditional measures to the more complex metrics of today You will learn how all the statistics are connected to winning and losing games how to interpret them and how to apply them to performance on the field By the end of this book you will be able to evaluate players and teams through statistics more thoroughly and accurately than you could before **STATS Baseball Scoreboard 2000**, 2000 *Stats Player Profiles, 1993* STATS Inc, STATS, Inc.
