The Flemish Masters:

The Flemish Masters from Van Eyck to Bruegel ,2023-03-13 A fresh look at the astounding innovations of Netherlandish Renaissance painting through 48 case studies This sumptuous publication opens our eyes afresh to the revolution that took place in the Low Countries in the 15th and 16th centuries and which shaped the course of European art In 48 lavishly illustrated analyses Matthias Depoorter explores how painters such as Jan van Eyck Rogier van der Weyden Quentin Massys Hieronymus Bosch and Pieter Bruegel reached unprecedented heights of technical and aesthetic facility and are rightly considered key innovators in the story of Western painting to this day A defining factor in their innovations was the perfecting and mastery of oil painting technique as well as their groundbreaking attention to optical lighting effects The new technical possibilities offered a different way of looking at the world and ultimately a new way of painting No less innovative was the level of detail achieved by these artists most famously perhaps by Van Eyck These painters were thoroughly acquainted with one another s work and The Flemish Mastersexplores this artistic cross fertilization Altogether this volume constitutes a must read for anyone who wants to fall in love with the old masterpieces anew **Portraits by Flemish**

Everyone is familiar with the Golden Age of Dutch art this is an opportunity to explore its no less glorious Flemish counterpart It is said that much of the greatest art is produced during periods of strife In the mid 16th century Flanders the United Provinces in the north modern Holland and the Spanish Netherlands in the south modern Belgium was the most sophisticated society in Europe but its learning and luxury industries were all but annihilated by the so called Dutch Revolt and by the Eighty Years War that followed 1568 1648 Two thirds of the works discussed here were painted during this turbulent period including Pieter Bruegel s Massacre of the Innocents of 1567 During the Renaissance the Low Countries attained a flawless technique of painting and the highest standards of craftsmanship This tradition survived during even the worst years of the war *The German and Flemish masters in the National gallery* Mary H. Gallery The important and interesting collections of German and Flemish pictures in the National Gallery have scarcely received the special study which has been accorded so often to the rival schools of Italy They have never perhaps been treated as a whole nor in that intimate relation to one another which their early history demands The literature connected with German and Flemish art is indeed extensive and increasing Since the remarkable Exhibition held at Bruges in 1902 the early Flemish painters in particular have been subjected to the most careful and critical examination and much that was before cloudy and vague has been defined while many new problems have arisen No attempt has been made in this volume to enter upon the more controversial aspects of the subject The vexed question of attributions is after all of secondary importance to the intrinsic beauty of the pictures The writer's object has been to trace the development of these schools through the examples in our Gallery and to sum up in regard to them the results of the most recent criticism acknowledging here the debt due to the indefatigable researches of writers both in this country and abroad About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Old Dutch and Flemish Masters (Classic Reprint) Timothy Cole, 2015-06-29 Excerpt from Old Dutch and Flemish Masters The publication of this volume requires few words of explanation That it contains in permanent form thirty wood engravings by Timothy Cole after the masterpieces of Dutch and Flemish art is in itself sufficient reason for the book's existence These engravings have been produced in the same manner and with the same skill and care that characterized Mr Cole's earlier engravings after the old Italian masters Indeed it was the success of the Italian work that led to his undertaking the present series Directly after completing his work in Italy Mr Cole was asked by the managers of The Century to go to Holland and undertake the translation of the great Dutchmen In 1892 he removed from Italy to Amsterdam where he remained for a year engraving the pictures chosen for reproduction from the Holland galleries He then went back to Paris where he has remained up to the present time working from the Dutch and Flemish pictures in the Louvre and elsewhere In every instance Mr Cole has produced his engraving with the original picture before him the photograph being thrown upon the block and its insufficiencies or inequalities being corrected by consulting the original In this way absolute fidelity to the original has been obtained not only in line and in modeling but in giving the exact values of colors under light and under shadow In determining the truth of a form a light or a tone Mr Cole's long experience has made him an expert and though passing from Italy to Holland a change from line to color he has easily adapted himself to the new point of view and has interpreted the new methods with the same artistic sympathy that marked his former work About the Publisher Forgotten Books publishes
