Grandt, 2018-12-15 Gettin Around

examines how the global jazz aesthetic strives in various ways toward an imaginative reconfiguration of a humanity that transcends entrenched borders of ethnicity and nationhood while at the same time remaining keenly aware of the exigencies of history Jürgen E. Grandt deliberately refrains from a narrow empirical definition of jazz or of transnationalism and true to the jazz aesthetic itself opts for a broader more inclusive scope even as he listens carefully and closely to jazz's variegated soundtrack. Such an approach seeks not only to avoid the museal whiff of a golden age time past but also to broaden the appeal and the applicability of the overall critical argument. For Grandt international simply designates currents of people, ideas, and goods between distinct geopolitical entities or nation states whereas transnational refers to liminal dynamics that transcend preordained borderlines occurring above, below, beside, or along the outer contours of nation states. Getting Around offers a long overdue consideration of the ways in which jazz music can inform critical practice in the field of transnational American studies and grounds these studies in specifically African American cultural contexts. **Airport Design** Tateng K. Djajasudarma, IAI, AA, GP, 2017-07-24. What are the most vital considerations in designing an airport? What innovations are apt to be incorporated to fulfill their design? This book offers an in-depth insight into five built airports by Wiratman Architecture. Airport Design offers an in-depth insight into five built airports and three design competition entries in Indonesia. From the minuscule to the immense, the scale and complexity of airports can be studied through the pictures, sketches, and stories behind their design that are presented in this book. Law and Regulation of Aerodromes Dr. Ruwantissa Abeyratne, 2014-04-02. This book encapsulates in detail the principles pertaining to legal and regulatory aspects of aerodromes. As the title denotes, it discusses the various aspects of the structure and functioning of an aerodrome and the complexities involved. It focuses on the law and regulation of aerodrome certification and planning, aerodrome services, financial and economic planning, security management, and governance. The airport industry is one of the fastest growing within the aviation industry, requiring innovation and creativity in management. This in turn has called for an increased focus on advanced management programmes for airport managers and lawyers. The Airport Management Professional Accreditation Programme (AMPAP) offered worldwide by the International Civil Aviation Organization and Airports Council International and the Angkasa Pura II Airport Management Excellence Programme of Indonesia are two such initiatives which give airport professionals a sound grounding on the principles and techniques of management and law.
