 engagingly presents social development in children through the language of preference management Conversational
 excerpts garnered from around the world trace how parents talk about preferences how infants and children s emergent
 language conveys their preferences how children themselves are impacted by others preferences and how they in turn
 influence the preferences of adults and peers The language of preferences is used to crack into altruism aggression and
 morality which are ways of coming to terms with other people s preferences Behind the scenes is a cognitive engine that uses
 transformational thought conducting temporal imaginal and mental transformations to figure out other people s preferences
 and to find more sophisticated means of outmanoeuvring others by persuading them and playing with one s own mind and
 other people s minds when preferences are blocked This book is a unique and sometimes amusing must read for anyone
