## Stone Heart:

**Stoneheart** Charlie Fletcher,2010-07-25 A city has many lives and layers London has more than most Not all the layers are underground and not all the lives belong to the living Twelve year old George Chapman is about to find this out the hard way When in a tiny act of rebellion George breaks the head from a stone dragon outside the Natural History Museum he awakes an ancient power This power has been dormant for centuries but the results are instant and terrifying A stone Pterodactyl unpeels from the wall and starts chasing George He runs for his life but it seems that no one can see what he is running from No one except Edie who is also trapped in this strange world And this is just the beginning as the statues of London awake This is a story of statues coming to life of a struggle between those with souls and those without of how one boy who has been emotionally abandoned manages to find hope
