[Singing and Communicating in English](#) Kathryn LaBouff, 2007-12-21 From the Foreword by Renee Fleming Kathryn LaBouff has developed an approach to singing in the English language which is wonderfully user friendly and which has surely saved much wear and tear on my voice It is a technique that has empowered me with the knowledge and skills to bring a text to life and to be able to negotiate all of the sounds of the language with the least amount of effort I have found her clever and extremely creative use of substitute consonants or combinations of consonants in creating clear diction utterly delightful because they are surprising and because they work These techniques have been equally useful when singing in foreign languages We sopranos are not usually known to have good diction particularly in our high range I found that working with Kathryn improved my ability to be understood by an enormous percentile of the audience with much less vocal fatigue than I would have experienced if left to my own devices I have often told my colleagues enthusiastically of her interesting solutions to the frustrating problems of diction I am thrilled that her techniques are now in print for all to benefit from them In *Singing and Communicating in English* internationally
