## Smart Interiors:

**Small + Smart Interiors** David Andreu Bach, 2017-02 The projects in this book convey the ingenuity and skill of architects and designers who create interesting but smaller sized living environments These spaces suggest lifestyles which while not typical seek to maintain basic standards of quality and comfort The designs of these environments are the result of a search for superior functional flexibility that makes the most of every inch of space Among the imaginative solutions in evidence are walls that contain and conceal household equipment or furnishings that can be moved to create different areas Although some are based on simple items of furniture and others are highly experimental prototypes all the projects in this volume reveal unquestionable architectural sensitivity *House & Garden*, 1930

**SUSTAINABILITY AND ECOLOGICAL TRANSITION IN THE POST-COVID ERA** Ricardo García-Mira, Petra Schweizer-Ries, Cristina García-Fontán, 2024-09-23 The new challenges of our economic social and ecologic global context require solutions that go beyond business as usual strategies While Europe and North America have gone through a deep economic crisis which has affected all aspects of life especially housing and working conditions other areas of the world have continued to grow and develop The changing global context has important implications on the ways human beings organize their settings for everyday life their residential environments and communal services in particular and on the necessity for supporting transitions to sustainable societies
