**Strengthening the Responsibility to Protect** Richard Illingworth, 2023-11-02 This book provides a systematic analysis of reform measures aimed at strengthening the implementation of the Responsibility to Protect R2P doctrine utilising a cosmopolitan lens In 2005 member states of the United Nations UN accepted a Responsibility to Protect against four mass atrocity crimes genocide crimes against humanity war crimes and ethnic cleansing Despite this commitment mass atrocities remain a pervasive aspect of the international landscape In addressing R2P reform the book utilises a transitional cosmopolitan lens The aim of this transitional cosmopolitan approach is to promote incremental progress towards solving moral problems by operating within particular contexts and practical barriers to change Three areas for reform are explored the UN Security Council P5 s power of veto to prevent the veto obstructing timely and decisive R2P response action the powers of the UN General Assembly as an alternative means for responding to mass atrocity situations and the establishment of an R2P Commission to hold states accountable for their R2P commitments These are not advocated as the definitive areas for R2P reform However each of the recommendations made can contribute at least some positive progress towards a more cosmopolitan application of the R2P that would help in curbing mass atrocity and improving the protection of fundamental human rights This book will be of much interest to students of the Responsibility to Protect genocide humanitarian protection and International Relations in general [The Oxford Handbook of the Responsibility to Protect](#) Alex J. Bellamy, Timothy Dunne, 2016 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade **The UN Charter, the Refugee Convention and the Responsibility to Protect Doctrine** Ainoa Cabada, 2026-01-23 This book investigates three key frameworks applicable to the protection of asylum seekers and refugees the Charter of the United Nations the Convention Relating to the Status of Refugees and the Responsibility to Protect doctrine Through rigorous analysis it reveals how the current international refugee protection regime embodies a narrow reactive approach and makes a compelling case that protection should also be preventative While demonstrating that these three frameworks can work to protect refugee rights adequately the author identifies significant normative challenges The research exposes discrepancies and contradictions that potentially undermine the frameworks effectiveness in protecting

vulnerable populations Building on this the book advocates for establishing a preventative protection regime grounded in the normative principles of these frameworks For this it articulates an R2P Preventative Assessment Tool that integrates the development of protection plans alongside risk assessments This book posits that shifting the focus of protection towards prevention could assist in minimising the impact of mass atrocities armed conflict and or humanitarian interventions This thought provoking monograph will appeal to academics researchers students practitioners policymakers and non governmental stakeholders including UN officials Its interdisciplinary approach spans refugee studies human rights international relations international organisations and global governance Readers interested in the development and evolution of international legal norms the UN s navigation of sovereignty and displacement issues and atrocity prevention will find this work particularly valuable
