To Have And Have Not Screenplay:

To Have and Have Not Jules Furthman, William Faulkner, 1980 The story of the making of *To Have and Have Not* 1944 is an exciting and complex one ranging from the widely reported romance between its stars Humphrey Bogart and the unknown nineteen year old Lauren Bacall to one of the more subtle developments in the wartime alliance between the United States and the Batista regime in Cuba Bruce F Kawin's substantial and informed introduction reflects this excitement while explaining the complexities helping all film scholars students and buffs to gain a fuller appreciation of one of Hollywood's most memorable melodramas This is a story also of a collaboration among four important writers Ernest Hemingway Howard Hawks Jules Furthman and William Faulkner

To Have and Have Not Jules Furthman, 1947 *To Have and Have Not* Jules Furthman, 1944 Faulkner's Hollywood Novels Ben Robbins, 2024-08-12 Tracing the influence of Faulkner's screenwriting on his literary craft and depictions of women William Faulkner's time as a Hollywood screenwriter has often been dismissed as little more than an intriguing interlude in the career of one of America's greatest novelists Consequently it has not received the wide ranging critical examination it deserves In Faulkner's Hollywood Novels Ben Robbins provides an overdue thematic analysis by systematically tracing a dialogue of influence between Faulkner's literary fiction and screenwriting over a period of two decades Among numerous insights Robbins's work sheds valuable new light on Faulkner's treatment of female characters both in his novels and in the films to which he contributed Drawing on extensive archival research Robbins finds that Hollywood genre conventions and archetypes significantly influenced and reshaped Faulkner's craft after his involvement in the studio system His work in the film industry also produced a deep exploration of the gendered dynamics of collaborative labor genre formulae and cultural hierarchies that materialized in both his Hollywood screenplays and his experimental fiction

Cinematic Fictions David Seed, 2012-01-01 The phrase cinematic fiction has now been generally accepted into critical discourse but is usually applied to post war novels This book asks a simple question given their fascination with the new medium of film did American novelists attempt to apply cinematic methods in their own writings From its very beginnings the cinema has played a special role in defining American culture Covering the period from the 1910s up to the Second World War *Cinematic Fictions* offers new insights into classics like *The Great Gatsby* and *The Grapes of Wrath* discussing major writers critical writings on film and active participation in film making *Cinematic Fictions* is also careful not to portray cinema as a single or stable entity Some novelists drew on silent film others looked to the Russian theorists for inspiration and yet others turned to continental film makers rather than to Hollywood Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium selectively pursuing strategies of montage limited point of view and scenic composition towards their different ends Contrasting a diverse range of cinematic and literary movements this will be compulsory reading for scholars of American literature and film
