Shaping Competitive Advantages

Wolfgang Hillebrand,1996 This work takes a look at the governance patterns and management concepts adopted in leading OECD countries and advanced developing countries ADCs such as Korea

Global Trends and Regional Development

Nikolai Genov,2011-09-23 For millennia contact between societies was limited to trade or wars a situation that changed profoundly with the development of global markets serving industrialization The outcome was the emergence of one global human civilization and one common future that will depend on the capacity of individuals and societies to manage the potentials for social development This edited collection is dedicated to the discussion of four global trends upgrading the rationality of organizations individualization the spreading of instrumental activism and universalization of value normative systems The mutual influence of these interrelated trends brings about both constructive and destructive effects in social life social integration and change Contributors examine questions such as How do global trends pave their way in regions What are the similarities and differences of regional development How do agencies cope with the challenges of global trends in regional development

Promoting Industrial Competitiveness in Developing Countries Sanjaya Lall,1999 This book describes the micro foundations of competitiveness and enterprise and translates the lessons to national level It looks at the competitive performance in East Asia and highlights lessons to be learned by other developing countries

Modeling Economic Growth in Contemporary Czechia Daniel Stavárek,Michal Tvrdoň,2024-04-08 Separated into four distinct parts Modeling Economic Growth in Contemporary Czechia explores economic growth in Czechia from the perspectives of the dynamics of the economy setting up of the economic policies functioning of the markets and institutions and the contribution of specific industry sectors to economic growth

Local Economies in Turmoil Arni Sverrisson,Meine Pieter Van Dijk,2000-07-14 The main theme is how local economic cultures and economic networks in the South and in Eastern Europe are put under strain by global deregulation and how traditional and not so traditional but locally rooted structures of economic life adjust to deregulation or fail to do so All the contributions written by different authors combine a flexible specialization in clusters approach with original empirical data An Introduction and a concluding chapter by the editors brings out the common issues and conclusions

Mobilities, Tourism and Travel Behavior Leszek Butowski,2018-01-17 The notion of mobilities when looked at from a practical point of view turns out to cover different kinds of human activity It is not surprising then that when approached from an academic perspective it reveals enormous potential for interdisciplinary

research which has proven extremely attractive to many scholars from different continents disciplines and schools of academic inquiry The scholars in this volume focus on the specific aspects of mobilities namely tourism and travel behavior but approach them from a plethora of positions Such a myriad of perspectives is bound to be challenging in methodological terms but it seems there is a growing agreement as to the worthiness of this interdisciplinary research By means of combining various approaches researchers obtain access to a fascinating and increasingly ubiquitous phenomenon of contemporary human mobility

The Knowledge Economy and Lifelong Learning D.W. Livingstone, David Guile, 2012-09-07 This book presents some of the most trenchant critical analyses of the widespread claims for the recent emergence of a knowledge economy and the attendant need for greater lifelong learning The book contains two sections first general critiques of the limits of current notions of a knowledge economy and required adult learning in terms of historical comparisons socio political construction and current empirical evidence secondly specific challenges to presumed relations between work requirements and learning through case studies in diverse current workplaces that document richer learning processes than knowledge economy advocates intimate Many of the leading authors in the field are represented There are no other books to date that both critically assess the limits of the notion of the knowledge economy and examine closely the relation of workplace restructuring to lifelong learning beyond the confines of formal higher education and related educational policies This reader provides a distinctive overview for future studies of relations between work and learning in contemporary societies beyond caricatures of the knowledge economy The book should be of interest to students following undergraduate or postgraduate courses in most social sciences and education business and labour studies departments as well as to policy makers and the general public concerned about economic change and lifelong learning issues D W Livingstone is Canada Research Chair in Lifelong Learning and Work and Professor Emeritus at the Ontario Institute for Studies in Education University of Toronto David Guile is Professor of Education and Work at the Institute of Education University of London

Education and the Knowledge-Based Economy in Europe ,2008-01-01 This book addresses the recent impact of the knowledge based economy as an economic imaginary and as a set of real economic developments on education and especially higher education in Europe including educational strategies and policies such as those of the Bologna process on a European scale The contributors come from various disciplinary backgrounds education history linguistics sociology but share a commitment to trans disciplinary research and a view that changes in educational policy and practice can productively be researched with a focus on discourse The papers in this collection apply a range of approaches to discourse analysis as well as narrative policy analysis and several contributors use a cultural political economy perspective which incorporates a version of critical discourse analysis The book will be of interest to researchers post graduate students and advanced undergraduate students in several subject areas including education discourse studies and political economy

Governance and Upgrading John Humphrey, Hubert Schmitz, 2000 **International Labour Documentation**

International Labour Office. Central Library and Documentation Branch,1997 *The Competitiveness Challenge* United Nations Conference on Trade and Development,2000 This study looks at how the developing countries are facing the challenges of competitiveness and globalisation Drawing the literature and on industry surveys in ten countries it traces the role that foreign direct investment FDI has played in developing the garment colour television receiver and automobile industries of Argentina Brazil Costa Rica the Dominican Republic Malaysia Mexico Morocco and Thailand It also compares the role that FDI has played in Chile and Zimbabwe as these countries developed their natural resources based industries The analysis is based on an examination of three economic levels the micro level of individual firms the meso level of the industrial sector and the macro level of the policies adopted by developing countries The findings illustrate the vulnerability of the industries under review and the difficulties that countries have faced in becoming competitive However where governments have had policies in place to anchor international trade and investment in their domestic economies globalisation has opened an avenue to competitiveness and economic development **The Journal of Developing Areas** ,1995 The Regionalization of the World Economy and Consequenzen [sic] for Southern Africa Heribert Dieter,1997
