to find out more about it whether you are a student or teacher or just a fan [Taiwan Cinema](#) G. Hong, 2011-02-25 A groundbreaking study of Taiwan cinema Hong provides helpful insight into how it is taught and studied by taking into account not only the auteurs of New Taiwan Cinema but also the history of popular genre films before the 1980s The book is essential for students and scholars of Taiwan film and visual studies and East Asian cultural history *Taiwan Film Directors* Emilie Yueh-yu Yeh, Darrell William Davis, 2005 The year 2003 marked the fiftieth anniversary of James Watson's and Francis Crick's discovery of the structure of DNA which began a revolution in the biological sciences and radically altered the way humans view life and themselves In this poetic account Erwin Fleissner an eminent cancer researcher and teacher offers a personal and professional reflection on the most significant developments in molecular genetics and cell biology over the past fifty years *Vital Harmonies* is a sweeping look at these crucial scientific advances and an insider's perspective on what scientists have actually learned from them Contrasting the humanistic side of scientific research with more deterministic or mechanical explanations of life processes Fleissner discusses everything from natural selection to the tradition of rational inquiry stemming from the Enlightenment He goes on to describe the structures of macromolecules and their organizing principles as well as cancer genes stem cells and the Human Genome Project He also explores neuronal cells and the emergence of consciousness and how biological evolution is the foundation of our personal reality as well as our global responsibility Fleissner asserts that scientific investigations cannot negate our essential humanness nor should the public fear them Taking an optimistic perspective he argues that a deeper knowledge of ourselves as biological entities will provide us ultimately with greater health serenity and self knowledge *Vital Harmonies* gives readers whatever their background an engaging analysis of some of the most important questions facing humanity today **Taiwan Cinema as Soft Power** Song Hwee Lim, 2022 Why has Taiwanese film been so appealing to film directors critics and audiences across the world This book argues that because Taiwan is a nation without hard political and economic power cinema becomes a form of soft power tool that Taiwan uses to attract global attention to gain support and to build allies Author Song Hwee Lim shows how this goal has been achieved by Taiwanese directors whose films win the hearts and minds of foreign audiences to make Taiwan a major force in world cinema The book maps Taiwan's cinematic output in the twenty first century through the three keywords in the book's subtitle authorship transnationality historiography Its object of analysis is the legacy of Taiwan New Cinema a movement that begun in the early 1980s that has had a lasting impact upon filmmakers and cinephiles worldwide for nearly forty years By examining case studies that include Hou Hsiao hsien Ang Lee and Tsai Ming liang this book suggests that authorship is central to Taiwan cinema's ability to transcend borders to the extent that the historiographical writing of Taiwan cinema has to be reimagined It also looks at the scaling down of soft power from the global to the regional via a cultural imaginary called little freshness which describes films and cultural products from Taiwan that have become hugely popular in China and Hong Kong In presenting Taiwan cinema's significance as a case of a small

nation with enormous soft power this book hopes to recast the terms and stakes of both cinema studies and soft power studies in academia
