State Board of Education, 1924 **Who Controls Who? Do You Control Your Child Or Does Your Child Control You?** Kelly Bryant, 2020-08-25 Dear Reader I am a single mom with two amazing beautiful children Through my experiences I learned how to be a happy and mentally healthy parent Thus I want to dedicate this book to all parents Parenthood changes everything both within ourselves and regarding how we view the world The reason I wrote this book is to help parents with a different maybe unique viewpoint on how you can approach and handle your baby toddler and teenager which in my belief can help you to raise a future adult who doesn't feel overwhelmed but instead has a healthy approach towards life and a healthy mindset I love to help parents and young people helping to motivate them to bring the best out of themselves and each other I know what it means to me when I bring the best out of myself and my kids and I also know when I am not and how that negatively affects us both It makes a huge difference I found myself adopting a new outlook as somewhere deep down I knew something was not right and I wasn't doing the right thing It was not that bad either but the main reason I knew a change was needed was that I was not feeling happy as a parent Some of my unhappiness was creeping into the parent-child relationships such as how I was talking to my children and how I was dealing with certain situations I felt I needed to solve this problem as it had started to eat me up inside As I began to explore and embrace new viewpoints it became clear that I had various issues to work on which I could then begin to solve Some of

the key difficulties were as follows 1 I was a highly unhappy parent 2 I had no self confidence in myself as a mum 3 I suffered emotionally daily while raising my children 4 I was battling to adjust to today s world 5 I did not know how to handle certain situations with my children 6 I saw that my children were uninterested and bored 7 I wasn t connecting with my children 8 I was becoming an impatient parent 9 My children were getting more and more angry Just to name a few The strategies and viewpoints I am about to share here I have used in my own life with my children They have worked wonders for me and changed everything for the better You must find out if they work for you Since learning new perspectives and developing the willingness to be open to them I have seen my communication and most touchingly my ability to laugh together increased with my children and we are now having a great time I have also seen that the changes implemented make both them and myself so much more happy and cheerful From my viewpoint they must have a stable relaxed and happy parent I needed to work hard to break away from a lot of false data about parenthood and adopt workable solutions I wanted to share all of this with you I would never choose any other role as better than motherhood From the first moment I laid my eyes on my first daughter I was very scared But I managed to change that around Now motherhood is not something that I would call tiring but the opposite Now it gives me energy and gives me happier fuller life experiences My newly assumed views have helped me tremendously in how to treat my children It was not always like this But from the moment my first baby was born I knew I didn t have all the tools and knowledge that I needed to raise her but that I could find and learn them and could become a better parent
