From Inquiry to Academic Writing Stuart Greene, April Lidinsky, 2011-07-06 Academic writing is a conversation, a collaborative exchange of ideas to pursue new knowledge. *From Inquiry to Academic Writing: A Text and Reader* demystifies cross-curricular thinking and writing by breaking it down into a series of comprehensible habits and skills that students can learn in order to join in. The extensive thematic reader opens up thought-provoking conversations being held throughout the academy and in the culture at large. Read the preface.

Christ Divided Katie Walker Grimes, 2017-11-01 Bringing the wisdom of generations of black Catholics into conversation with contemporary scholarly accounts of racism, *Christ Divided* diagnoses antiblackness supremacy as a corporate vice that inhabits the body of Christ. To truly understand racial inequality, theologians must acknowledge the existence of antiblackness supremacy and recognize its uniquely foundational role in prevailing processes of racialization and racial hierarchy. In addition to introducing a new framework of racial analysis, this book proposes a new approach to virtue ethics. Because the church's participation in and performance of white supremacy occurs as a result of corporate habituation, the church most needs new habits, not new teachings. The theory of corporate virtue outlined here provides a framework through which to evaluate these habits and propose new ones to be made to do the right thing.

White Male Privilege Mark Rosenkranz, 2017-08-09 The book *White Male Privilege* will enable readers to understand that looking at different perspectives is an important step in the fight against racism and discrimination.

A Reader on Race, Civil Rights, and American Law Timothy Davis, Kevin R. Johnson, George A. Martínez, 2001 This anthology offers a range of legal and related literature analyzing the major issues of race and civil rights in the modern United States. Unlike previous works which have tended to focus on the relationship between Caucasians and African Americans, this anthology considers race and civil rights issues from a wide range of minority perspectives: African American, Asian American, Latino, and Native American. The debate over race issues is examined in numerous contexts, including the role of race in laws affecting education, housing, employment, voting rights, immigration, and the administration of criminal justice. In this anthology, editors Davis, Johnson, and Martínez explore broader themes such as the history of racial subordination of African Americans, Native Americans, Asian Americans, and Latinos; affirmative action; hate speech; and the subordination of

women of color In setting the stage for an examination of race in these diverse contexts the anthology's first selections explore the concept of race The anthology is geared toward but not limited to law school classes focusing on civil rights and race relations The selections are of such a nature that the anthology should also appeal to anyone interested in foundational readings in this area Each chapter begins with an introduction that strives to provide a framework from which the reader can analyze the current debates over issues of race in the United States
