## **Latest Yoga Practice:**

**The First 20 Hours** Josh Kaufman, 2014-05-27 What if it's possible to learn the basics of any new skill in 20 hours or less? Research suggests it takes 10,000 hours to master a new skill and the earliest hours are always the most frustrating. That's why it's so difficult to learn a new language, play an instrument, hit a golf ball, or shoot great photos. Josh Kaufman offers a better way. His systematic approach to rapid skill acquisition shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice, you can pick up the basics in record time and have more fun along the way. *Nep 2020: A New Era In Education* Dr. Anuj Agarwal And Dr. Dheeraj Kumar Sharma, 2025-05-28 We live in a time of big change. Tech is growing fast and the world is more connected. This new era brings chances, problems, and new ideas. These changes affect our lives, jobs, and society. The book *New Era* looks at this changing time. It gives insight into human progress. It covers AI, green tech, and new social ideas. It shows how these changes impact who we are and the future of work. *New Era* is about more than just new tech. It is about how to think to guide the future. It looks at where we are and where we could go. It encourages talks and action during this unsure time. The book asks you to think about your role in the future. It asks you to welcome change. It asks you to see chances that come when we plan for progress. It calls on leaders, thinkers, and people to use this new era. It asks them to create a future that embraces and guides change. I am happy to share this book. I hope it starts talks, gives ideas, and unites us to build the future. Dr. Anuj Agarwal, Dr. Dheeraj Kumar Sharma. [The Routledge Companion to Performance Philosophy](#) Laura Cull, Ó Maoilearca, Alice Lagaay, 2020-07-08 *The Routledge Companion to Performance Philosophy* is a volume of especially commissioned critical essays, conversations, collaborative creative and performative writing, mapping the key contexts, debates, methods, discourses, and practices in this developing field. Firstly, the collection offers new insights on the fundamental question of how thinking happens: where, when, how, and by whom philosophy is performed. Secondly, it provides a plurality of new accounts of performance and performativity as the production of ideas, bodies, and knowledges in the arts and beyond. Comprising texts written by international artists, philosophers, and scholars from multiple disciplines, the essays engage with questions of how performance thinks and how thought is performed in a wide range of philosophies and performances from the ancient to the contemporary. Concepts and practices from diverse geographical regions and cultural traditions are analysed to draw conclusions about how performance operates across art, philosophy, and everyday life. The collection both contributes to and critiques the philosophy of music, dance, theatre, and performance, exploring the idea of a philosophy from the arts. It is crucial reading material for those interested in the hierarchy of the relationship between philosophy and the arts, advancing debates on philosophical method and the relation between Performance and Philosophy more broadly.
