*Soviet Strategy* John Baylis, Gerald Segal, 2021-01-26 This book first published in 1981 is an analysis of the Soviet Union's military strategy taking in both sides of the hawks and doves views of the USSR's intentions It examines the Soviet approach to nuclear war defence and deterrence in the nuclear age and the calculation of risk in the use of the military instrument One of the main themes running through the chapters is that although the Soviet Union clearly does not view military issues in the same way as does the West their approach is not necessarily aggressive and dangerous in all respects **Soviet Strategy in the Middle East** George W. Breslauer, 2015-07-16 Few regions of the world are as politically turbulent as the Middle East and nowhere is the potential for superpower conflict greater How does the Soviet Union view the Middle east conflict Can the USSR play a constructive role in the peace process In this volume first published in 1990 these questions and others central to an understanding of Soviet strategy in the region are addressed Previous analysts of Soviet Middle Eastern relations have tended to emphasize either the cooperative or the competitive aspects of Soviet behaviour Breslauer instead offers the multidimensional concept of collaborative competition to describe the mixed motives ambivalence and sometimes conflicting perspectives that have informed Soviet strategy in the region In such an unstable environment this strategy of collaborative competition has in turn encouraged approach avoidance behaviour for example while the Soviets may seek to moderate their radical allies they remain fearful that these allies once moderated might defect to US patronage Under Gorbachev the Kremlin continues to pursue this same strategy but with increased attention to improving collaboration redefining the nature of the competition and easing the approach avoidance dilemma Breslauer argues that these changes could lead to more flexible Soviet behaviour in the region This volume combines new in depth research on Soviet policy with new interpretations including insights drawn from relevant theories of international relations [Soviet Strategy and the](#)

MPLA and the Zimbabwe African People's Union ZAPU These cases trace the development of the Soviet Union's ties to the national liberation movements the amount and types of assistance provided and the impact of the relationship on the national liberation movements General analysts of international relations analysts of Soviet foreign policy and Africanists will find this a valuable resource The author contends that during the 1960s and 1970s the Soviet Union pursued a common strategy toward all three national liberation movements Although the strategy was applied flexibly to take into account the idiosyncracies of the individual liberation struggles in each case the Soviet Union pushed the national liberation movement to adopt the Soviet political model The Soviet view was that the adoption of this model would eventually lead to the development of relatively more stable and dependable allies Since 1980 however in each case there is significant evidence that the Soviet Union has altered markedly if not abandoned its previous strategy
