

A man in a dark suit and white shirt is shown from the chest up, leaning back with his head tilted upwards. He is looking towards a cityscape at night, which is partially obscured by a bright, glowing horizon line. The sky above is a dramatic, fiery orange and red, suggesting a sunset or sunrise. The overall mood is contemplative and serene.

The Art of Sensorial Language Barbara Pia Jenič, 2025-07-31 *The Art of Sensorial Language* examines audience interactivity and multisensory experiences that can be understood internationally and cross culturally It considers interactivity not as a technological mode of interaction but as a direct and immediate communication between the audience and the performers which takes place in person and in which all participants are in contact with each other By describing theatrical techniques and approaches for organically immersing the audience in the story this book shows how the development of these methods is also applicable to multisensory presentations for museums and galleries The author places particular emphasis on the development of scents and their uses for cultural and educational purposes to allow for greater

and deeper immersion in an event or installation Inspired by the work of Enrique Vargas the inventor of sensorial language the discussion reveals how this approach not only engages the senses but also integrates additional methods and tools to create a poetic symphony which is particularly important for enriching user experiences in theatres galleries and museums as well as in other forms of immersive experiences This study will be of great interest to experts in multisensory approaches within the fields of the arts and education as well as specialists in cultural heritage and tourism *Just Beyond Listening* Michael C.
