Three Great Books on Magic Franz Bardon,2020-12-06 This volume contains three books of Franz Bardon 1 Initiation into Hermeticism 2 The Practice of Magical Evocation 3 The True Key to the Quabalah In reality magic is a sacred science it is in the very true sense the sum of all knowledge because it teaches how to know and utilize the sovereign rules There is no difference between magic and mysticism or any other conception of the name Wherever authentic initiation is at stake one has to proceed on the same basis according to the same rules irrespective of the name given by this or that creed Considering the universal polarity rules of good and evil active and passive light and shadow each science can serve good as well as bad purposes Let us take the example of a knife an object that virtually ought to be used for cutting bread only which however can become a dangerous weapon in the hands of a murderer All depends on the character of the individual This principle goes just as well for all the spheres of the occult sciences In my book I have chosen the term of magician for all of my disciples it being a symbol of the deepest initiation and the highest wisdom *Beeton's Encyclopædia of universal information* Samuel Orchart Beeton,1888 *Universal Engineer* ,1918
