Bee-Inspired Protocol Engineering Muddassar Farooq,2008-11-30 Honey bee colonies demonstrate robust adaptive efficient agent based communications and task allocations without centralized controls desirable features in network design This book introduces a multipath routing algorithm for packet switched telecommunication networks based on techniques observed in bee colonies The algorithm BeeHive is dynamic simple efficient robust and flexible and it represents an important step towards intelligent networks that optimally manage resources The author guides the reader in a survey of

nature inspired routing protocols and communication techniques observed in insect colonies He then offers the design of a scalable framework for nature inspired routing algorithms and he examines a practical application using real networks of Linux routers He also utilizes formal techniques to analytically model the performance of nature inspired routing algorithms In the last chapters of the book he introduces an immune inspired security framework for nature inspired algorithms and uses the wisdom of the hive for routing in ad hoc and sensor networks Finally the author provides a comprehensive bibliography to serve as a reference for nature inspired solutions to networking problems This book bridges the gap between natural computing and computer networking What sets this book apart from other texts on this subject is its natural engineering approach in which the challenges and objectives of a real world system are identified before its solution nature inspired or otherwise is discussed This balanced exposition of the book makes it equally suitable for telecommunication network designers and theorists and computer science researchers engaged with artificial intelligence agents and nature inspired techniques *Beowulf Cluster Computing with Linux* Thomas Lawrence Sterling,2002 Enabling technologies An overview of cluster computing Thomas Sterling Node Hardware Thomas Sterling Linux Peter H Beckman Network Hardware Thomas Sterling Network Software Thomas Sterling Setting Up clusters installation and configuration How fast is my beowulf David Bailey Parallel programming Parallel programming with MPI William Gropp Advanced topics in MPI programming William Gropp Parallel programming with PVM Al Geist Fault tolerant and adaptive programs with PVM Al Geist Managing clusters Cluster workload management James Patton Jones Condor a distributed job scheduler Maui scheduler A multifunction cluster scheduler David B Jackson PBS portable batch system James Patton Jones PVFS parallel virtual file system Walt Ligon Chiba city the Argonne scalable cluster **C++ Network Programming** Douglas C.
