Unjewish State:

Judenstaat Theodor Herzl, 1896-01-01 Founder of modern Zionism clearly forcefully advocates creation of a Jewish homeland Extremely influential Introduction Bibliography **The Jewish State** Yoram Hazony, 2009-04-30 In what may be the most controversial book on Zionism and Israel published in the last twenty years Yoram Hazony graphically portrays the cultural and political revolt against Israel's status as the Jewish state Examining ideological trends in academia literature media law the armed forces and the foreign policy establishment Hazony contends that Israelis are preparing themselves for the final break with the Jewish past and the Jewish future In a dramatic new reading of Israeli history Hazony uncovers the story of how Martin Buber Gershom Scholem Hannah Arendt and other German Jewish intellectuals bitterly fought against the establishment of Israel and later used the Hebrew University as a base for deposing David Ben Gurion and discrediting Labor Zionism *The Jewish State* is a must read for anyone concerned with Israel's present and future [The Idea of the Jewish State](#) Ben Halpern, 1961 *To Be a Jewish State* Yaacov Yadgar, 2024-11-19 Examines the meaning of Jewish politics in Israel In one of the first books to ask head on what it means for Israel to be a Jewish state Yaacov Yadgar delves into what the designation Jewish amounts to in the context of the sovereign nation state and what it means for the politics of the state to be identified as Jewish The volume interrogates the tension between the notion of Israel as a Jewish state one whose very character is informed by Judaism and the notion of Israel as a state of the Jews with the sole criterion the maintenance of a demographically Jewish majority whatever the character of that majority's Jewishness might or might not be The volume also examines Zionism's relationship to Judaism It provocatively questions whether the Christian notion of supersessionism the idea that the Christian Church has superseded the nation of Israel in God's eyes and that Christians are now the true People of God may now be applied to Zionism with Zionism understood by some to have taken over the place of traditional Judaism rendering the actual Jewish religion superfluous *To Be a Jewish State* deeply informs the democratic crisis in Israel discussing whether Jewish laws put into effect by the state or political moves made to ensure a Jewish majority can be seen as undermining democracy In our current era with nationalism resurging *To Be a Jewish State* urges a critical re assessment of the very meaning of modern Jewish identity **The World Significance of a Jewish State** Adolf Augustus Berle, 1918 [Jewish State Party, what it Stands for](#) Jewish State Party, 1935 [The Jewish State](#) Theodor Herzl, 2014-11-26 Zionism is Jewish ethno nationalism in its purest form The creation of the state of Israel is the most successfully executed plan to create an ethnically homogenous territory in modern history As such it is worth of study by any group seeking its own ethnically based homeland This book written in 1896 by the founder of the Zionist movement and thereby the de facto founder of Israel lays out the plan and route by which Jewish statehood was achieved Herzl describes in detail how the state was justified how the Jews would go about managing the physical occupation of the territory and the logistical steps which had to be taken in order to achieve a Jews only state In these times of demographic change in the West those seeking a solution to the

impending crisis facing European man will do well to study this plan No matter what the current problems of Israel may be the reality is that it is a Jewish homeland majority occupied by Jews and a basis from which that people will be able to survive whatever racial demographic invasion might swamp the West European survival will depend upon the creation of geographic territorial enclaves and this book tells how it can be done Significantly Herzl points out that anti Semitism would be one of the biggest push factors which would drive Jews to the Zionist state This is of bearing to Europeans given what will be the increasingly anti white nature of many of the multi racial Western states This book is more than a historical document It is a manual a guidebook for those seeking to create an ethno state It should be read by all those serious about creating such a haven for the increasingly beleaguered European people Contents INTRODUCTION Theodor Herzl A BIOGRAPHY Preface Chapter I Introduction Chapter II The Jewish Question Chapter III The Jewish Company Chapter IV Local Groups Chapter V Society of Jews and Jewish State Chapter VI Conclusion

A Jewish State Theodor Herzl,1917 *The Jewish State* Alan Dowty,1998-01-30 As the fiftieth anniversary of Israeli statehood approaches along with the commemoration of the hundredth anniversary of the World Zionist Organization the question of what is meant by a Jewish state is particularly timely Alan Dowty takes on that question in a book that is admirable for its clarity and its comprehensive interpretation of the historical roots and contemporary functioning of Israel Israeli nationhood democracy and politics did not unfold in a social or political vacuum but developed from power sharing practices in pre state Jewish communities in Palestine and in Eastern Europe Dowty elucidates the broad cluster of cultural historical and ideological tenets which came to comprise Israel s contemporary political system He demonstrates that such tenets were not arbitrary but in fact developed logically from Jewish political habits and the circumstances of time Dowty illustrates how these traditions are balanced with those of ideology and modernization and he provides an integrated sophisticated analysis of the Israeli nation s formation and present state Dowty also proposes thoughtful answers to puzzles regarding the strengths and weaknesses of Israeli democracy in responding to the challenges of communal divisions religious contention the country s non Jewish minority and accommodation with the Palestinians *The Jewish State* will be invaluable for anyone looking for that one book that gives an intelligent overview of both Israel today and of its origins

Palestinian Citizens in an Ethnic Jewish State Nadim N. Rouhana,1997-01-01 He discusses the consequences of Israel s ideology policy and practices toward the Arab minority the effect of major developments in the Arab world particularly in the Palestinian communities in exile and in the West Bank and Gaza and the impact of changes within the Palestinian community in Israel such as demography level of education socio economic structure and political culture

[The Jewish State](#) Theodor Herzl,1946 [The Jewish State](#) Theodor Herzl,Alex Bein,Louis Lipsky,2025-03-28 *The Jewish State* by Theodor Herzl is a foundational text in the history of Zionism and the movement to establish a Jewish state Herzl a key figure in Zionist history presents his compelling argument for a political solution to the plight of the Jewish people This seminal work categorized under Social Sciences explores the necessity and

feasibility of creating a sovereign nation for Jews It provides invaluable insight into the political and religious context of the late 19th century offering a window into the historical roots of Israel Delve into Herzl's vision and understand the intellectual framework that shaped the Zionist movement Explore the ideas that sparked a global movement and reshaped the map of the Middle East This edition preserves the original text offering readers direct access to Herzl's powerful and influential message This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Jewish Activities in the United States, 1921 **The Jewish State** Theodor Herzl, 2013-06-26 It is astonishing how little insight into the science of economics many of the men who move in the midst of active life possess Hence it is that even Jews faithfully repeat the cry of the Anti Semites We depend for sustenance on the nations who are our hosts and if we had no hosts to support us we should die of starvation This is a point that shows how unjust accusations may weaken our self knowledge But what are the true grounds for this statement concerning the nations that act as hosts Where it is not based on limited physiocratic views it is founded on the childish error that commodities pass from hand to hand in continuous rotation We need not wake from long slumber like Rip van Winkle to realize that the world is considerably altered by the production of new commodities The technical progress made during this wonderful era enables even a man of most limited intelligence to note with his short sighted eyes the appearance of new commodities all around him The spirit of enterprise has created them

On the Way to a Jewish State Rabbi Yitzchak Ginsburgh, 2014-05-29 The phrase A Jewish state in the Land of Israel plucks at the deepest heartstrings of every yearning Jew For generations since the destruction of the Temple and the exile to the diaspora we have believed and hoped prayed and dreamed about the ingathering of the exiles and our return to living in our Land standing tall asking God to break the yoke of the nations from over our necks and lead us to our land standing tall The ultimate goal of our yearning is the complete redemption the arrival of Mashiach and the construction of the Temple There is no doubt that a Jewish state is an essential and central component of the grand picture of the redemption of the Jewish People Yet it is clear that the state that was established on 5th Iyar 5708 1948 as it stands today is still a far cry from that dreamlike vision that has warmed our hearts for almost two thousand years It is not difficult to understand why many Torah and mitzvah observant Jews are reluctant to identify themselves with the state and its symbols Attesting to this problem are the festivities of Yom Ha atzmaut around which rages a long and intense controversy within the religious community in Israel One might suppose that the differences of opinions will not end in the near future However we can and must arise above them and join together when it comes to the main issue which is what type

of state do we want and what are we doing to achieve it This is a constructive and positive activity that not only relates to what has been and what currently exists but mainly turns its face to the future with the goal of rectifying and healing reality

The Jewish Forum, 1928 **To Be a Jewish State** Yaacov Yadgar, 2024-11-19 Examines the meaning of Jewish politics in Israel In one of the first books to ask head on what it means for Israel to be a Jewish state Yaacov Yadgar delves into what the designation Jewish amounts to in the context of the sovereign nation state and what it means for the politics of the state to be identified as Jewish The volume interrogates the tension between the notion of Israel as a Jewish state one whose very character is informed by Judaism and the notion of Israel as a state of the Jews with the sole criterion the maintenance of a demographically Jewish majority whatever the character of that majority s Jewishness might or might not be The volume also examines Zionism s relationship to Judaism It provocatively questions whether the Christian notion of supersessionism the idea that the Christian Church has superseded the nation of Israel in God s eyes and that Christians are now the true People of God may now be applied to Zionism with Zionism understood by some to have taken over the place of traditional Judaism rendering the actual Jewish religion superfluous To Be a Jewish State deeply informs the democratic crisis in Israel discussing whether Jewish laws put into effect by the state or political moves made to ensure a Jewish majority can be seen as undermining democracy In our current era with nationalism resurging To Be a Jewish State urges a critical re assessment of the very meaning of modern Jewish identity The Jewish State Theodor Herzl, 2018-10-10 The Jewish State was a political pamphlet written by Zionist political theorist and playwright Theodor Herzl and was originally published in German in February 1896 and in English later that year as translated by Sylvie d Avigdor The work outlines a solution for a Jewish state and is an important text in the early Zionist canon Wherein he argues that the best way to avoid anti Semitism in Europe would be to create an independent Jewish state and he advised that Jews purchase land in Palestine as first steps towards this goal The Religion of Israel to the Fall of the Jewish State A. Kuenen, 1882 History of the Jews: From the rise of the Kabbala, 1270 C.E., to the permanent settlement of the Marranos in Holland, 1618 C.E Heinrich Graetz, 1894
