Weber,1990-05-23 Scholars agree that religion clause jurisprudence is in disarray The Supreme Court is divided on the issue religious lobbyists and litigators aggressively pursue their often conflicting goals and novel pieces of church state litigation are frequent news items Editor Paul J Weber argues that a 25 year old theory called strict neutrality may provide a foundation on which a more compelling theory of the First Amendment religion clauses can be developed Although superficially examined in a search for new approaches by many law review authors very little serious analysis has been done

of strict neutrality equal separation and little attempt has been made to develop the concept In Equal Separation the pros and cons of strict neutrality are argued by six outstanding scholars who represent a challenging array of viewpoints each critiques the concept by focusing on a different perspective Despite vigorous disagreement over the conditions required for religious liberty and nonestablishment and the means necessary to achieve them each author's dedication to the concepts is clearly manifested in this volume In the first chapter Weber outlines a strict neutrality thesis The next three chapters enlarge upon criticisms that focus on a defense of the free exercise of religion offer a defense against strict neutrality's assault on the establishment clause and contrast accommodation pluralist theory with strict neutrality The issue of strict neutrality and the schools is addressed in Chapter 5 and an overview of the Court's development of the concept of separation of church and state is presented in Chapter 6 The editor's concluding chapter explores the criticisms and defends the strict neutrality equal separation theory This volume will be of particular interest to constitutional scholars jurists and professors and students of law
