**I Know You** Annabel Kantaria, 2019-06-11 This fascinating compulsively readable domestic suspense set in London will absolutely appeal to fans of Liane Moriarty and *B A Paris* as it asks readers How well do you know your friends Booklist That picture you posted I've seen it That location you tagged I've been there I know everything about your life And I'm going to destroy it A recent transplant from sunny California life in the London suburbs is not what Taylor Watson expected Far from the West End shops and city lights she imagined she finds herself pregnant and lonely with a husband frequently away on business and only social media to keep her company It's only after Taylor joins a book club and a walking group that she finally starts to make some real life friends Before long Taylor's hanging out with Anna Sarah Simon and Caroline but as her pregnancy progresses and her friendships blossom a sense of unease develops Nothing's ever quite as it seems on the surface and it soon becomes clear that Taylor's new friends have secrets One appears to be after Taylor's husband another's always putting her down and then there's the question of Simon Could he have feelings for Taylor But far more worryingly one of the group's not being too careful what they post on social media and another is watching all too closely Who's stalking who and why

*Revisiting the Nomadic Subject* Maria Tamboukou, 2021-10-27 This book follows the stories of forcefully displaced women and raises the question of whether we can still use the figuration of the nomadic subject in feminist theories and politics This question is examined in the light of the ongoing global crises of mobility and severe border practices In recounting their stories migrant and refugee women appear in the world as who they are unique and unrepeatable human beings and not as what they are objectified refugees victims or stateless subjects Women's stories leave traces of their will to rewrite their exclusion from oppressive regimes defend their choice of civil and patriarchal disobedience grasp their passage claim their right to have rights and affirm their determination for new beginnings What emerges from the encounter between theoretical abstractions and women's lived experiences is the need to decolonize feminist theories and make cartographies of mobility assemblages wherein nomadism is a component of entangled relations and not a category or a figuration of a subject position These stories that have now been collected transcribed and analysed they have created a rich archive of uprooted women's experiences and have brought forward a wide range of new ideas that will be presented and discussed in the book *Decolonizing feminist theory: Mobility assemblages and geographies of nomadism* The art of listening to fragmented narratives and the labour of translation Crossing borders and inhabiting borderlands Radical solitude and radical hope Feminist genealogies of labour under conditions of forced displacement The force of political narratives through the figure of Antigone Education for hope Imagining the non nomad 4 narrated stories will also be presented in full interwoven in the theoretical discussions of the book thus opening up a dialogic space between theoretical reflections and diffractions and narratives of lived experiences
