We Must Run While They Walk:

We Must Run While They Walk William Edgett Smith, 1972 **Every Hill a Burial Place** Peter H. Reid, 2020-09-01 On March 28 1966 Peace Corps personnel in Tanzania received word that volunteer Peppy Kinsey had fallen to her death while rock climbing during a picnic Local authorities arrested Kinsey s husband Bill and charged him with murder as witnesses came forward claiming to have seen the pair engaged in a struggle The incident had the potential to be disastrous for both the Peace Corps and the newly independent nation of Tanzania Because of the high stakes surrounding the trial questions remain as to whether there was more behind the final not guilty verdict than was apparent on the surface Peter H Reid who served as a Peace Corps volunteer in Tanzania at the time of the Kinsey murder trial draws on his considerable legal experience to expose inconsistencies and biases in the case He carefully scrutinizes the evidence and the investigation records providing insight into the motives and actions of both the Peace Corps representatives and the Tanzanian government officials involved Reid does not attempt to prove the verdict wrong but examines the events of Kinsey s death her husband s trial and the aftermath through a variety of cultural and political perspectives Meticulously researched and replete with intricate detail this compelling account sheds new light on a notable yet overlooked international incident involving non state actors in the Cold War era

In This Land of Plenty Benjamin Talton, 2019-08-23 On August 7 1989 Congressman Mickey Leland departed on a flight from Addis Ababa with his thirteen member delegation of Ethiopian and American relief workers and policy analysts bound for Ethiopia s border with Sudan This was Leland s seventh official humanitarian mission in his nearly decade long drive to transform U S policies toward Africa to conform to his black internationalist vision of global cooperation antiracism and freedom from hunger Leland s flight never arrived at its destination The plane crashed with no survivors When Leland embarked on that delegation he was a forty four year old deeply charismatic fiercely compassionate black radical American He was also an elected Democratic representative of Houston s largely African American and Latino Eighteenth Congressional District Above all he was a self proclaimed citizen of humanity Throughout the 1980s Leland and a small group of former radical activist African American colleagues inside and outside Congress exerted outsized influence to elevate Africa s significance in American foreign affairs and to move the United States from its Cold War orientation toward a foreign policy devoted to humanitarianism antiracism and moral leadership Their internationalism defined a new era of black political engagement with Africa *In This Land of Plenty* presents Leland as the embodiment of larger currents in African American politics at the end of the twentieth century But a sober look at his aspirations shows the successes and shortcomings of domestic radicalism and aspirations of politically neutral humanitarianism during the 1980s and the extent to which the decade was a major turning point in U S relations with the African continent Exploring the links between political activism electoral politics and international affairs Benjamin Talton not only details Leland s political career but also examines African Americans successes and failures in influencing U S foreign policy toward African and other Global South

The Soft Budget Constraint – The Emergence, Persistence and Logic of an Institution Gun Eriksson Skoog, 2013-04-18 This is a story of the soft budget constraint It seeks an answer to a paradox the prevalence of the soft budget constraint in spite of the tremendous inefficiencies that it gives rise to and its persistence in spite of reform of the system of which it is an integral part The story aims at increasing our understanding of why the phenomenon exists By studying the case of state in Tanzania before during and after socialism an explanation of the owned enterprises emergence persistence and logic of the soft budget constraint is suggested This introductory chapter presents an argument showing why this story is worth telling It discusses the research topic and how the problem it presents is attacked THE SOFT BUDGET CONSTRAINT The soft budget constraint is today a popular metaphor Originally it was seen as a characteristic of the socialist system It refers to the tendency of primarily state owned enterprises to have their liquidity gaps or losses accommodated by the state or some other external funding body and to the resulting expectations of such bail out The concept was coined by the Hungarian economist Hmos Kornai He distinguishes between four major forms of external financial assistance that contribute to the soft budget constraint soft subsidies soft taxation soft credit and soft 2 administrative pricing
