**What IS Sex?** Alenka Zupancic, 2017-09-08 Why sexuality is at the point of a short circuit between ontology and epistemology Consider sublimation conventionally understood as a substitute satisfaction for missing sexual satisfaction But what if as Lacan claims we can get exactly the same satisfaction that we get from sex from talking or writing painting praying or other activities The point is not to explain the satisfaction from talking by pointing to its sexual origin but that the satisfaction from talking is itself sexual The satisfaction from talking contains a key to sexual satisfaction and not the other way around even a key to sexuality itself and its inherent contradictions The Lacanian perspective would make the answer to the simple seeming question What is sex rather more complex In this volume in the Short Circuits series Alenka Zupan i approaches the question from just this perspective considering sexuality a properly philosophical problem for psychoanalysis and by psychoanalysis she means that of Freud and Lacan not that of the kind of clinician practitioners called by Lacan orthopedists of the unconscious Zupan i argues that sexuality is at the point of a short circuit between ontology and epistemology Sexuality and knowledge are structured around a fundamental negativity which unites them at the point of the unconscious The unconscious as linked to sexuality is the concept of an inherent link between being and knowledge in their very negativity

**What Is Sexual Harassment?** Abigail Saguy, 2003-08-13 In France a common notion is that the shared interests of graduate students and their professors could lead to intimate sexual relations and that regulations curtailing those relationships would be both futile and counterproductive By contrast many universities and corporations in the United States prohibit sexual relationships across hierarchical lines and sometimes among coworkers arguing that these liaisons should have no place in the workplace In this age of globalization how do cultural and legal nuances translate And when they differ how are their subtleties and complexities understood In comparing how sexual harassment a concept that first emerged in 1975 has been defined differently in France and the United States Abigail Saguy explores not only the social problem of sexual harassment but also the broader cultural concerns of cross national differences and similarities

hopefully be able to identify what love and sex in dystopian fiction means Ever since Thomas More s Utopia love and sex have been a part of dystopian novels In Thomas More s times his depictions were ground breaking Women were not allowed to marry until they were 18 In the past this was highly unusual since most women married at the age of around 14 Furthermore divorce is forbidden which at this point mirrors the time More lived in This clearly influenced all the following writers of dystopian novels They imagine a world that is negatively silhouetted against their own world And since love is a big part of every society it is also a big part in every dystopian society When looking for the most famous dystopian novels on Google two that are immediately suggested are Brave New World by Aldous Huxley and 1984 by George Orwell Both have one thing in common their rather negative and for us rather unusual attitude towards love relationships and sex
