Writers At Work:

Latin American Writers at Work Paris Review,2003-03-18 The fourth book in the Modern Library's Paris Review Writers at Work series Latin American Writers at Work is a thundering collection of interviews with some of the most important and acclaimed Latin American writers of our time These fascinating conversations were compiled from the annals of The Paris Review and include a new lyrical Introduction by Nobel Prize winning author Derek Walcott Writers at Work,1981

The Making of a Bestseller Arthur T. Vanderbilt,1999-01-01 Writer F Scott Fitzgerald's career itself is a metaphor for the vagaries of book publishing If Fitzgerald would have had his way we would today refer to The Great Gatsby as either Gold Hatted Gatsby Trimalchio in West Egg or The High Bouncing Lover A few years before Gatsby Fitzgerald had become a literary sensation at the age of 23 Helen Hooven Santmyer a contemporary of Fitzgerald's would not have a successful novel published until she was 88 and living in a nursing home In this book the author explores that mysterious place in publishing where art and commerce can either clash mesh or both Along the way a wide range of authors from the literary greats to today's commercial superstars editors agents and publishers share their thoughts insights and experiences What inspires writers John Steinbeck for example wrote every novel as if it were his last as if death were imminent Why are some books successful and appreciated while others fall into oblivion The answers are often elusive never absolute but the stories and anecdotes are always fascinating

The Concept of the Foreign Rebecca Saunders,2003-01-01 The Concept of the Foreign investigates the diverse and consequential uses of the concept of the foreign a formidable and hitherto untheorized force in everyday discourse and practice This highly original work whose experimental nature moves beyond traditional academic bounds undertakes to theorize the meanings deployments and consequences of foreignness a term largely overlooked by academic debates Innovative in format the book comprises an introductory theoretical dialogue and seven essays each authored by a scholar from a different discipline anthropology literary theory psychology philosophy social work history and women's studies who investigate how his/her disciplines engage and define the concept of the foreign Drawing out literal and metaphorical meanings of foreignness this wide ranging volume offers much to scholars of postcolonial gender and cultural studies seeking new approaches to the study of alterity *Embodied Imaginations*

Chidambaram Ramesh,2023-06-05 The science behind the writer's experience of characters developing their own will and taking objective forms Many writers have the experience that their characters have evolved their own personalities They start to tell their own stories and sometimes they could even rebel against the author's ideas for them and change the course of the whole plot That is not all though Sometimes literary characters assume objective appearances which are visible not just to the creators but also to others and manifesting in the real world These experiences raise several interesting philosophical and scientific questions Have the writers unwittingly created quasi-conscious entities by the power of their minds Can thoughts manifest as something tangible that can be seen heard or even touched How genuine are the contents of

the mind Embodied Imaginations explores these questions highlighting the results of an investigation on this fascinating topic stemming from personal anecdotes of many writers Providing scientific evidence for the existences of these mental constructs the goal is to collect robust and reliable building blocks that may help to deconstruct perceptions and provide answers to this phenomenon The book attempts to give modern science a place where spiritual philosophical and mystical threads can be interwoven Efforts have been made to corroborate theoretical claims with experimental evidence contributing to research in cognitive psychology to determine the role of imagination in creating external reality This book will introduce you to the mysterious and profound part of creative writing that you never knew existed before **The Modern Library**
