Garthoff, 1962

Soviet Strategy John Baylis, Gerald Segal, 2021-01-26 This book first published in 1981 is an analysis of the Soviet Union's military strategy taking in both sides of the hawks and doves views of the USSR's intentions It examines the Soviet approach to nuclear war defence and deterrence in the nuclear age and the calculation of risk in the use of the military instrument One of the main themes running through the chapters is that although the Soviet Union clearly does not view military issues in the same way as does the West their approach is not necessarily aggressive and dangerous in all respects **Soviet Strategy in the Middle East** George W. Breslauer, 2015-07-16 Few regions of the world are as politically turbulent as the Middle East and nowhere is the potential for superpower conflict greater How does the Soviet Union view the Middle east conflict Can the USSR play a constructive role in the peace process In this volume first published in 1990 these questions and others central to an understanding of Soviet strategy in the region are addressed Previous analysts of Soviet Middle Eastern relations have tended to emphasize either the cooperative or the competitive aspects of Soviet behaviour Breslauer instead offers the multidimensional concept of collaborative competition to describe the mixed motives ambivalence and sometimes conflicting perspectives that have informed Soviet strategy in the region In such an unstable environment this strategy of collaborative competition has in turn encouraged approach avoidance behaviour for example while the Soviets may seek to moderate their radical allies they remain fearful that these allies once moderated might defect to US patronage Under Gorbachev the Kremlin continues to pursue this same strategy but with increased attention to improving collaboration redefining the nature of the competition and easing the approach avoidance dilemma Breslauer argues that these changes could lead to more flexible Soviet behaviour in the region This volume combines new in depth research on Soviet policy with new interpretations including insights drawn from relevant theories of international relations [Soviet Strategy and the](#)

New Military Thinking Derek Leebaert, Timothy Dickinson, 1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s *Soviet Strategy in Europe* Richard Pipes, 1976 **Soviet Strategy for Nuclear War** Joseph D. Cline, 2019-03-20 Soviet global strategy long established and well understood by the Kremlin leaders is to intimidate weak and fearful governments exploit indigenous difficulties disrupt social order and promote communist revolutions In this volume European and American scholars describe the USSR s land and sea targets on and surrounding West Europe where t **Soviet Strategy Toward Western Europe** Edwina Moreton, Gerald Segal, 2021-01-26 This book first published in 1984 carefully examine the political debate surrounding nuclear weapons and superpower polices in Cold War Western Europe It seeks to analyse a distinctly European view in Soviet policy as opposed to a superpower view It examines Soviet domestic and foreign policy economic and military practice with the aim of understanding and countering the Soviet threat to Western Europe **The Military Strategy of the Soviet Union** David M. Glantz, 1992 Armed revolution and civil war gave birth to the Soviet Union world War II propelled it to global pre eminence and the Cold War contributed to the Soviet Union s demise Given Marxism Leninism s idological preoccupation with war and threats of war it is understandable that the spectre of war should play a vital role in the life and fate of the Soviet state This study of Soviet military strategy is based upon the twin pillars of Soviet political military actions and Soviet writings on the subject of military strategy Thanks to the policy of glasnost it incorporates Soviet materials hitherto unavailable in the West It aims to be not simply a retrospective account of what was but to form part of the context for what will be in the future **Strategy and Tactics of Soviet Foreign Policy** John Malcolm Mackintosh, 1963 Examines the major decisions made by Russia since 1944 to date of publication **Soviet Strategy Toward Southern Africa** Daniel R. Kempton, 1989-05-15 This study is the first significant work to examine Soviet involvement with national liberation movements NLMs in Africa as a separate subcategory of Soviet foreign policy in the developing world The text compares and contrasts actual Soviet behavior with declared policy Daniel R Kempton presents three case studies the African National Congress ANC in South Africa The Movimento Popular de Libertacao de Angola

MPLA and the Zimbabwe African People's Union ZAPU These cases trace the development of the Soviet Union's ties to the national liberation movements the amount and types of assistance provided and the impact of the relationship on the national liberation movements General analysts of international relations analysts of Soviet foreign policy and Africanists will find this a valuable resource The author contends that during the 1960s and 1970s the Soviet Union pursued a common strategy toward all three national liberation movements Although the strategy was applied flexibly to take into account the idiosyncracies of the individual liberation struggles in each case the Soviet Union pushed the national liberation movement to adopt the Soviet political model The Soviet view was that the adoption of this model would eventually lead to the development of relatively more stable and dependable allies Since 1980 however in each case there is significant evidence that the Soviet Union has altered markedly if not abandoned its previous strategy
