We Few:

We Few David Weber, John Ringo, 2005 Left stranded on the barbarian planet Marduk with a group of Royal Marines Prince Roger MacClintock and his followers set out to recapture an interstellar empire from enemies who have branded Roger a traitor and outlaw *Wednesday Writer 2* Todmorden Writers' Group, 2011-11-02 The second anthology of new writing from the Todmorden Writers Group Another opportunity to appreciate the creative talents of a group who have made a name for themselves in competitions both locally and across the nation Among the eighteen succulent pieces presented in this feast of writing are stories to thrill poems to chill and fiction that will bring tears of laughter and sorrow Perfect for dipping or enjoying as a full meal this compilation has something to appeal to everyone's taste buds Myths That Shaped Our History Simon Webb, 2017-10-30 Simon Webb's eminently readable book may draw gasps of horror disbelief or disdain a mind blowing and fascinating journey through history On Yorkshire Magazine All nations and peoples have a body of legendary tales and semi historical episodes which explain who they are and help to define their place in the world The British are no exception and in this book Simon Webb explores some of the most well known episodes from British history stories which tell the British about themselves and the country in which they live Examining these events in detail reveals something rather surprising In every case the historical facts are greatly at variance with what most British people think that they know about such things as the Battle of Waterloo Magna Carta the suffragettes and so on Indeed in many cases the reality is precisely the opposite of what is commonly believed For example the Battle of Waterloo was not a victory for the British army Magna Carta did not set out any rights for ordinary people and the suffragettes delayed rather than hastened the granting of votes for women This book shows that much of what the British believe about their history has been either grossly distorted or is just plain wrong revealing some of the misconceptions which are held about famous incidents from the nation's past In each case the truth is far richer and infinitely more interesting than the version learned by schoolchildren These myths for that is what they essentially are reveal as much about the way that the British people like to see themselves now as they do about what happened in the past We Few David Weber, John Ringo, 2006-09-01 Prince Roger MacClintock was an heir to the galaxy's Throne of Man and a self obsessed spoiled young brat until he and the Royal Marines sent to protect him were stranded on Marduk with only their feet to get them half way around the entire planet So far they've traversed a continent crossed a sea full of ship eating monsters taken over an enemy spaceport and hijacked a starship But they're not home free yet because home is no longer free In Roger's absence a palace coup by enemies of the MacClintock family has seized control of the Empire His mother the Empress is a captive in the palace and even in her own body drugged so that her will is not her own Roger's bother the heir to the throne is dead And Roger himself has been branded an outlaw and traitor Roger and his faithful band of human marines and native alien warriors have beaten the barbarian planet Marduk Now they must re conquer an interstellar empire But they aren't about to give up and with the help of those on the throne

planet who are still loyal to the Empress they will infiltrate under cover of a restaurant specializing in exotic Mardukan dishes no less they will make anyone who gets in their way such as local mobsters who make the mistake of kidnapping Roger's fiancé very sorry that they did and they will not rest until the rightful ruler has been restored Once again a lot of power hungry people are going to learn a hard lesson You do not ever mess with a MacClintock

To Slip the Surly Bonds of Earth Hugh Cameron, 2020-08-10 The West continues its precipitous decline The ancient magnificent awe inspiring Christian Churches which had taken centuries to build are burning all over Europe and that tragedy and violence on the streets are becoming so commonplace that it barely is mentioned by the media Even the most egregious terrorist outbreaks are passed over by politicians as something which occurs in big cities and the indigenous population should simply get used to it Policing in most of the West has sunk to an all time low Rape of women and children has reached unprecedented levels Crimes against property and person are largely ignored Break and Entry now no longer even merits a police inspection Horrifying acid attacks where acid is thrown on a young woman destroying her face never before seen in Europe are barely mentioned Any vestige of Free Speech has become a thing of the past and there is a return to the Thought Police of the Communist era The Prometheus Group a disparate collection of people who fear for the future of civilization especially the unlikely Enlightenment concept of intrinsic individual human worth have established small colonies on Mars and the moon They continue to fly under the radar of public attention as much as they can while quickly expanding

these colonies The economic collapse of countries such as Greece had long been anticipated Unsurprisingly the economic situation in Canada suddenly deteriorates and the US President is forced to step in to prevent complete anarchy which would threaten the undefended US northern border Unwilling to involve the United States government directly she asks the Prometheus Group for personnel to help oversee and assist the economic rescue of Canada which the group agrees to with exceeding reluctance More of the exceptional children continue to be sought by the Prometheus Group and continue to be found in the most unlikely places As before they are mainly seeking girls whose genius would otherwise be missed These children are enlisted into the effort to produce the science which will get as many people as possible into space and speed the terraforming of Mars before the cataclysm of civil war which is now inevitable in Europe and will likely spread to involve the world Any extension of war outside Europe will inevitably result in a nuclear exchange with unimaginable destruction as a single nuclear airburst could produce such an electromagnetic pulse as to wipe out all computers within the blast area This disaster multiplied many times over and almost certainly aided by biological warfare would produce a possible reversion to primitivism tribalism and savagery or the establishment of a dystopian rigid unchangeable medieval philosophy All's Well That Ends Well Peter Graystone, 2021-11-30 Few writers have a deeper understanding of the foibles of human nature and life's absurdities and tragedies than William Shakespeare This makes him a fascinating companion for the season of Lent a traditional time for a spot of self examination This engaging wise and often amusing Lent book sets quotations from Shakespeare's characters and poems alongside biblical passages and reflects on the resonance between them one reflection for each day of the season It starts with dust on Ash Wednesday Golden lads and girls all must As chimney sweepers come to dust from Cymbeline and ends with resurrection as Easter Sunday approaches It is required you do awake your faith from The Winter's Tale In between it considers many rich spiritual themes mercy love loyalty trust good vs evil guilt forgiveness ageing grief death hope and more Each day's reflection opens with a quotation from Shakespeare and explores its ideas in conversation with the Bible and Christian thought *With what Persuasion* Scott Forrest Crider, 2009 Although there are a number of book length studies of rhetoric in Shakespeare's plays *With What Persuasion* discerns a distinctly Shakespearean ethics of the art of rhetoric in them In this interdisciplinary book Scott F Crider draws upon the Aristotelian traditions of poetics rhetoric and ethics to show how Shakespeare addresses fundamental ethical questions that arise during the public and private rhetorical situations Shakespeare represents in his plays Informed by the Greek Roman and English poetic and rhetorical traditions *With What Persuasion* offers close readings of a selection of plays Hamlet Julius Caesar Henry the 5th All's Well That Ends Well Othello Measure for Measure and The Winter's Tale to answer universal questions about human speech and association answers that refute a number of contemporary literary and rhetorical theory's assumptions about language and power Crider argues that this Shakespearean ethics could assist us in our own historical moment as we in the liberal multicultural West try to refound without coercion ethical principles to bind us to one another **Building Supply**
