**- Praxeology and Meaning** Heinrich Wilhelm Schäfer, 2019-11-07 Starting from the sociology of Pierre Bourdieu Sch fer  
composes a methodical approach to habitus of social actors and the logic of their praxis Building upon the generative terms  
of praxeology he focuses on identity and strategy in processes of internalization their transformation by means of  
dispositional schemes and their externalization in action The emphasis lies on a theory of dispositions that allows a flexible  
understanding of identity and strategy formation in the context of social experience and the interplay with social structures  
This theory is developed over the course of a three step analysis on habitus as a network of dispositions on the dynamics that  
unfold between the logic of socio structural processes and practical logic and on the praxeological assessment of social  
structures via models of fields and the social space This book is the second of three volumes of HabitusAnalysis While the  
first volume deals with the epistemological underpinnings of praxeology this book advances Bourdieu s theory with a special  
focus on creativity of action in the context of social structures thereby preparing the methodological design of empirical  
models in the third volume    **Sunset**, 1916    **Who's who in the Theatre**, 1926    **The Green Room Book**, 1908
