What The Dead Remember:

To Remember the Faces of the Dead Thomas Maschio, 1994 As he challenges classical semiological accounts of cultural representation in this ethnography of Melanesian religious phenomenology Thomas Maschio shows that ritual and poetic performance are about the enactment expression and invention of the self Maschio demonstrates how such emotions as nostalgia anger sadness and grief are creatively transformed during the course of religious performance and expression into a form of cultural memory one that juxtaposes a pattern of cultural meaning with the emotional feeling of plenitude the Melanesian Rauto call makai Evoked during initiation mourning and agricultural rites and figuring prominently in Rauto discourse about the self makai joins personal memory to patterned sets of images and meanings that Westerners would call culture

Remembering the Dead Sentus Francis Dikwe, 2020-01-07 Remembering the dead is a topic which connects various cultures and traditions The reception of the African tradition of ancestorship is a theological enrichment in the ecumenical discussions all over the world In our time the exchange of gifts plays a great role in promoting unity of the Churches Especially the concepts of African theology with the incomparable special position of Jesus Christ as proto ancestor are important for the interconfessional dialogues The veneration of the ancestors in Africa can be a help to begin ecumenical discussions in this regional context on the question of the veneration of the saints According to African tradition the ancestors also have influence on the process of purification Therefore the veneration of the ancestors contributes to providing answers to the ecumenical controversies about the understanding of the eschatological purification Sentus Francis Dikwe SDS born in 1980 in Morogoro Tanzania ordained priest of the Salvatorian Congregation He attained doctorate in theology 2020 in Munster Germany

WHAT THE DEAD REMEMBER. CHRISTINA. WELBOURNE, 2026 [The Creation and Inheritance of Digital Afterlives](#) Debra J. Bassett, 2022-01-01 This book explores how social networking platforms such as Facebook Twitter and WhatsApp accidentally enable and nurture the creation of digital afterlives and importantly the effect this digital inheritance has on the bereaved Debra J Bassett offers a holistic exploration of this phenomenon and presents qualitative data from three groups of participants service providers digital creators and digital inheritors For the bereaved loss of data lack of control or digital obsolescence can lead to a second loss and this book introduces the theory of the fear of second loss Bassett argues that digital afterlives challenge and disrupt existing grief theories suggesting how these theories might be expanded to accommodate digital inheritance This interdisciplinary book will be of interest to sociologists cyber psychologists philosophers death scholars and grief counsellors But Bassett s book can also be seen as a canary in the coal mine for the intentional Digital Afterlife Industry DAI and their race to monetise the dead This book provides an understanding of the profound effects uncontrollable timed posthumous messages and the creation of thanabots could have on the bereaved and Bassett s conception of a Digital Do Not Reanimate DDNR order and a voluntary code of conduct could provide a useful addition to the DAI Even in the digital societies of the West we are far from immortal but perhaps the

question we really need to ask is who wants to live forever

Death in the Early Twenty-first Century Sébastien Penmellen Boret, Susan Orpett Long, Sergei Kan, 2017-07-18 Focusing on tradition technology and authority this volume challenges classical understandings that mortuary rites are inherently conservative The contributors examine innovative and enduring ideas and practices of death which reflect and constitute changing patterns of social relationships memorialisation and the afterlife This cross cultural study examines the lived experiences of men and women from societies across the globe with diverse religious heritages and secular value systems The book demonstrates that mortuary practices are not fixed forms but rather dynamic processes negotiated by the dying the bereaved funeral experts and public institutions In addition to offering a new theoretical perspective on the anthropology of death this work provides a rich resource for readers interested in human responses to mortality the one certainty of human existence
