Intellectuals in Politics James Joll, 1960 Three Intellectuals in Politics James Joll, 1961 **Intellectuals - and Politics**, 1967 **Three Intellectuals in Politics: Blum, Rathenau, Marinetti** James Joll, 2020-04-03

L on Blum 1872 1950 Walther Rathenau 1867 1922 and Filippo Tommaso Marinetti 1876 1944 were all men who had made careers in other fields before they entered political life They were all men who were aware that the development of machines and of mechanised industry had created a new age and they were all concerned to come to terms with it Moreover they all belonged to a European intellectual and artistic world that was truly international and although they never met they had friends and acquaintances in common They were all men of ideas who were in one way or another compelled to go into politics because of the intellectual position they had reached All three experienced the difficulties and frustrations which confront the man of theory in the world of practice and all of them suffered as a result of becoming politicians Entry into politics led to Rathenau's death it endangered Blum's life and made nonsense of Marinetti's The careers of all three men raise the question of how far a man of intelligence or imagination sensibility or originality independence or scrupulousness can in fact stand up to the strain of the ruthless machine politics of the twentieth century and whether the intellectual in politics is not always going to be doomed to failure because of the nature of his own virtues This book is an attempt to give accounts of the character ideas and influence of three Europeans born into the apparently stable world of middle class commerce and industry in the second half of the nineteenth century who realised that that world was changing understood the nature of the changes and helped influence their course James Joll Introduction Three Intellectuals in Politics Each individual study is an admirable vignette Joll is a master of the today rarely practiced art of essay He includes everything worth knowing about a man within a brief compass he possesses an unerring eye for the telling detail along with the significant generalization he combines subjective sympathy with objective criticism in dealing with very different types of men He writes an excellent style and wears his scholarship lightly Klaus Epstein Jewish Social Studies Each essay is in itself first rate This is the political generation that first came to grips with the advanced technology produced by the industrial revolution that first struggled with the social problems ensuing from this technology that came to political maturity during the first great technological war of our era and that lived on to see at least the shadow of a second Furthermore as intellectuals these men are three unusually articulate representatives of that generation Being at the same time three very different men as different Joll suggests as the nations that produced them they can be seen to constitute three aspects of European man encountering the twentieth century Ronald Sanders The New Leader Professor Joll's broad use of the words politics and intellectual is more than justified by the intrinsic interest of the lives of these three men and their usefulness as introductions to the political and cultural atmosphere of France Germany and Italy in the early twentieth century John Ratté Commonweal L on Blum Walther Rathenau and F T Marinetti are the subjects of separate biographic essays here No matter what heights they reached in elective or appointive

office it is peculiar that none of these men was able to fulfill his socio economic aspirations or influence his countrymen to do so during his lifetime None of the three is remembered for what he considered his best achievements and each suffered the humility of recognizing his own failure and impotence This is not a book of hero stories These essays are valuable principally for their historical perspective on the era between the wars Kirkus Reviews *Intellectuals in Politics: Three Biographical Essays.* (Léon Blum: *the Intellectual in Politics.* Walther Rathenau: *Prophet Without a Cause.* F.T. Rooted in Place Rick A. López,2025-10-28 Since the first moment of conquest colonizers and the colonized alike in Mexico confronted questions about what it meant to be from this place what natural resources it offered and who had the right to control those resources and on what basis Focusing on the ways people environment and policies have been affected by political boundaries historian Rick A L pez explores the historical connections between political identities and the natural world L pez analyzes how scientific intellectuals laid claim to nature within Mexico first on behalf of the Spanish Empire and then in the name of the

republic during three transformative moments the Hernandez expedition of the late sixteenth century the Royal Botanical Expedition of the late eighteenth century and the heyday of scientific societies such as the Sociedad Mexicana de Historia Natural of the late nineteenth century This work traces how scientific intellectuals studied and debated what it meant to know and claim the flora that sprang from Mexican soil ranging from individual plants to forests and vegetated landscapes and the importance they placed on indigeneity It also points to the short and long term consequences of these efforts Lopez draws on archival and published sources produced from the sixteenth century through the start of the twentieth century and gives special attention to the use of visual images such as scientific illustrations and landscape art Lopez employs the term visualization in recognition of the degree to which officials botanists and draftsmen produced imagery and also how they and others viewed nature Rooted in Place reveals how scientific endeavors were not just about cataloging flora but were deeply intertwined with the construction of identity and the political landscape at three pivotal moments in Mexican history
