Three Things:

The Collected Works Philip Schaff, 2022-11-13 Philip Schaff's *The Collected Works* stands as a monumental contribution to the field of Christian theology and ecclesiastical history. This compendium comprises a thorough examination of the development of Christian doctrine drawing on a myriad of historical sources, biblical texts, and theological discussions. Schaff's literary style is characterized by its scholarly rigor, lucidity, and a deep commitment to historical continuity, offering readers an engaging narrative interspersed with critical analysis and contextual elaboration that is crucial for understanding the evolution of Christian thought. The work reflects the late 19th-century context in which it was produced, a period marked by both the consolidation of Protestant scholarship and burgeoning ecumenical movements. Philip Schaff (1819-1893), a Swiss-born theologian, arrived in America as part of the wave of European intellectuals seeking new opportunities in the wake of religious and political upheavals. His extensive academic career, including founding institutions and engaging in theological debates, has provided him with profound insights into the interactions between faith and culture. Schaff's profound passion for unifying the Christian Church and his extensive scholarly background in history and language shaped the vision for this comprehensive collection. *The Collected Works* is an essential read for scholars, theologians, and laypersons alike who seek to delve into early Christian history and doctrine. Schaff's meticulous scholarship invites readers to engage with the complexities of faith across centuries, making it not merely a work of historical documentation but also a compelling narrative that inspires contemporary discourse on Christianity's relevance today.

AN6 - Collection of Numbered Speeches Tomás Morales y Durán, 2024-03-31 The sixth book of the *Anguttara Nikaya*, the *Collection of the Numbered Discourses of the Buddha*, collects 649 suttas or discourses whose subject matter is almost always centered on groups of six topics. And I say almost always because there are not many topics in the texts of six elements so many are forced as in the case of chapter 11 called triads because they are just that triads. And well since three plus three is six, two triads are put in and we have supposedly a sextet ready to be included in the Book of Sixes. But we will also see that six is made by adding one to five or two to a group of four. In AN 6.29 he talks all the time about five things and ends up adding another to complete the six. Although this book also contains suttas to be read except for the final *Mtik*'s contained in the last chapters, its content remains uninteresting. It is becoming increasingly clear that the *Anguttara Nikaya* bases its popularity on its traditionally terrible translations that force the reader to go about inventing extrapolations to help him skip abstruse paragraphs providing that undefined mysterious halo of the abstract. In the section of anecdotal suttas we have AN 6.42 with *N gita*. In it the Buddha rants against fame and

its drawbacks such as the difficulty of being able to shit or pee in peace with five hundred followers who do not stop following you wherever you go We can highlight AN 6 18 A fish merchant where the Buddha exposes professions where his cruelty is not even economically compensated AN 6 60 with Hatthis riputta denounces the danger of teaching jh nas to people who are not going to pawn them for enlightenment Finally the group from AN 6 92 to AN 6 93 called Things that cannot be done where obviousness is exposed such as that it is absurd for someone with the correct belief to think of taking as a teacher someone who is not a Tataghata Interestingly this book lacks false suttas In short we are still engaged in an arduous and exhaustive work of research and reconstruction in comparative linguistics to unravel some texts without much interest
