High-speed Skiing Peter Lunn, 1935 **Motor Land**, 1921 **Beyond Traffic Safety** John Peter Rothe, Peter Rothe s absorbing volume examines one of the most important areas of modern life the culture of the automobile Rothe takes a problem central to everyday life auto safety and reconstructs it into a means of revealing the human condition His goal is to motivate the reader to think differently about traffic safety and to suspend all inherited epidemiological engineering and psychological beliefs Because traffic arises from the interaction between people he argues that traffic safety is a social process one that is created formed and changed by human interaction Beyond Traffic Safety presents controversial critiques and provocative positions It stimulates insight into the question of why traffic safety issues have become so important today Rothe explores new social boundaries and crosses old ones He demonstrates that

interlinking social factors in a motorist's behavior reveal traffic safety as a significant facet of social behavior worthy of in depth exploration This may well be the first work of fundamental theory in an area thus far dominated by crude empiricism Beyond Traffic Safety describes responsibilities of drivers and examines how basic trust in traffic routines sustains an orderly traffic flow It shows how physical risks are negotiated to accommodate social expectations Part of the text is devoted to the role played by the driver's license as a form of social control emphasizing the way in which various images of licensing convey different ideas about traffic safety Rothe focuses on the development of traffic laws and how laws affect driver behavior He also traces the roles that discretion and tolerance play in police work In particular the dominant traffic violation speeding is analyzed Rothe looks at traffic safety in a new way by presenting it as part of a social scientific framework He provides a basis for future exploration of this kind Beyond Traffic Safety is an important and insightful analysis for road users traffic safety educators policymakers psychologists and sociologists Box Office ,1936 **Speed Up** ,1920
