Michael A. Livingston, David S. Gamage, 2010 This publication differs from most existing tax casebooks the following ways  
The book includes complete chapters on business international and estate and gift taxation three areas of substantial  
importance that are historically left out of the basic tax course The book places a strong emphasis on planning and policy not  
as an adjunct to the more common legal materials but as part of an integrated pedagogic approach Each case or group of  
cases is followed by three different sets of problems Using the Sources Law and Planning and Politics and Policy which are  
designed to develop the student s law planning and policy analysis skills on a systematic basis Excerpts from leading law  
review articles are included in each chapter so that students can understand for themselves the basic issues in tax policy and  
legislation The book emphasizes current concerns in tax law and policy issues and problems that are likely to confront the  
next generation of tax practitioners and policy makers Thus substantial space is devoted to the new breed of tax shelters the  
tax treatment of gay and unmarried couples and the relationship of taxes to health retirement and environmental policy  
without sacrificing the classic cases that are the backbone of any tax book The text consists of twelve chapters each  
containing all of the types of problems described above and concluding with an in depth take home problem that may be used  
either as the basis for in class discussion or as a graded written assignment The book is accompanied by a comprehensive  
Teacher s Manual available only to professors that contains detailed answers for every question posed in the text together  
with suggestions for discussion and debate topics      Electronics ,1978      □□□□□□□□ □□,2000      *Restaurant Startup &
