12 Planets of the Intergalactic Map: The Vandekirians Derek Mailhiot, The adventures of Christiaan Daniel and Hannah continue on the planet Hyperios It s the third planet among the 12 Planets the three Tellurians have visited It doesn t go well They endure crisis after crisis When Christiaan mysteriously vanishes while trying to return to Schyllus Daniel goes in search of him leaving

Hannah all alone on Hyperios for decades just as things go from bad to apocalyptic Daniel eventually finds his dad in a strange solar system in the unknown part of the universe called Eternity where phantasmal laws prevail There they encounter a mysterious race of humans called the Vandekirians who hold answers to the origin and true purpose of the 12 Planets Meanwhile in the absence of the three Tellurians Earth faces unprecedented upheavals as the Travelers from Schyllus face opposition from the 144 but really masterminded by the malevolent Torajii with catastrophic consequences And Torajii doesn't stop with Earth He births new enemies more powerful than himself enemies who want to make the 12 Planets their playthings

Bipolar minds bipolar powers After a kind encounter breaks the shell of his anxiety and depression college senior Tristan Myriad is struck by lightning and granted an ancient power Homework becomes an afterthought as explosive abilities add new weight to a lifelong battle with his own mind With his roommate Bryce at his side he hones his abilities and searches for their origins chasing the coattails of the strange singer Decibelle She will find him with everything else that travels in her wake He will learn the hard way that mood swings don't have schedules and you can't resolve what's burnt and buried

A thief who can travel through mirrors a video game that threatens to spill out of the virtual world a doomsday cult on a collision course with destiny and a missing teenager at the center of it all With the world on the brink of every kind of apocalypse humanity needs a hero What it gets is Sid Catchpenny I absolutely loved it Catchpenny is a brilliant book full of heart and the language is pitch perfect If Elmore Leonard had ever written a fantasy novel this would be it Stephen King Sidney Catchpenny has had a bad run Laid low by a years long bout of debilitating depression he's all but squandered his reputation as one of the most uniquely talented thieves in LA There aren't many who can do what Sid does He's a sly a special kind of crook with the uncanny ability to move through mirrors And the spoils he's after are equally unusual Forget jewels and cold cash Sid steals curiosities items imbued with powerful mojo a magical essence gleaned from the accumulated emotion that seeps into interesting though often banal objects That spot on the carpet where your old dog used to lay at your feet The passed down family heirloom nobody wants but everybody refuses to throw away These curiosities are full of mojo which is both the currency of the criminal underground and the secret source of magic in the world When a friend from Sid's past comes looking for his help with an important client and the chance to pay off old debts presents itself Sid seizes the opportunity as best he can But the case he stumbles into is more complicated than it seems and it portends a seismic shift in the world one that will leave no one untouched As the fog of his depression begins to lift Sid sees connections everywhere he looks and the once disparate threads of the case a missing teenage girl an entire bedroom saturated with mojo and Sid's own long dead wife begin to coalesce
