Through Alternative Lenses:

Through the Distorted Lens Fiona C. Hum, 2025-11-26 This monograph analyses controversial trial outcomes both civil and criminal through a post structural feminist lens of narrative creation It considers how narratives are constructed in trials and how the admission or exclusion of evidence can lead to the formation of distorted narratives that produce flawed outcomes The book discusses contemporary evidential challenges surrounding the societal and legal framing of truth within the Anglo American trial process It applies a post structural feminist approach to examine how facts and rules are interpreted through the construction of legal stories Chapters are organised to address key themes in high profile cases from around the globe These include the cases of George Cardinal Pell Johnny Depp and Amber Heard Lawyer X Brittany Higgins and Kathleen Folbigg This book departs from previous publications such as those with a traditional feminist perspective in that it presents both sides of the distorted lens where a defendant is written into a story as both guilty and innocent Its focus on cognitive and narrative processes provides insight into the role of narratives and evidence construction in the trial process and how such processes are used by legal advocates This book would be of interest to scholars of legal psychology criminology and socio legal studies It will also interest scholars and students of Evidence law especially those studying miscarriages of justice
