should reverse that judgment which they had already pronounced upon the charges in the present state of the case In this situation with all the time which their lordships had afforded him for reflection it was difficult for him to compose his mind to the proper discharge of his professional duty for he was still weighed down with the sense of the heavy responsibility of the task he had undertaken He must also observe that it was no light addition to the anxiety of this feeling to foresee that before these proceedings closed it might be his unexampled lot to act in a way which might appear inconsistent with the duty of a good subject to state what might make some call in question his loyalty though that was not what he anticipated from their lordships He would now to mind their lordships that his illustrious client then Caroline of Brunswick arrived in this country in the year 1795 she was the niece of the Sovereign and the intended consort of the heir apparent and was herself not far removed from the succession to the crown But he now went back to that period solely for the purpose of passing over all that had elapsed from her arrival until her departure in 1814 and he rejoiced that the most faithful discharge of his duty permitted him to take this course But he could not do this without pausing for a moment to vindicate himself against an imputation to which he might not unnaturally be exposed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
