Training For A Smart Workforce:

Training for a Smart Workforce Rodney Gerber, Colin Lankshear, 2000 A fresh challenging international perspective on the issues involved in building a smart workforce Written by leading analysts and practitioners from Australia New Zealand Sweden and the USA issues of competence and expertise are considered **Work-Related Learning** Jan N. Streumer, 2006-03-14 Work related learning can be broadly seen to be concerned with all forms of education and training closely related to the daily work of new employees and is increasingly playing a central role in the lives of individuals groups or teams and the agendas of organizations However as this area of study becomes more prominent debates have opened about the nature of the field as well as about its configurations and effects For example some authors have a broad definition of WRL and define it as learning for work at work and through work ranging from formal through semi structured to informal learning Others prefer to use the concept of WRL mainly in connection to informal incidental learning processes during work leading to competent workplace learners Formal and informal learning are distinguished from each other with respect to the level of intention implicit non intentional incidental versus deliberative intentional structured Another point of discussion originates from the different theoretical backgrounds of the authors the learning theorists versus the organizational theorists The first group is mainly interested in the question of how learning comes about the second group is predominantly interested in the search for factors affecting learning *Beyond Skill* Jane Bryson, 2010-06-23 This book discusses the impact of government policy other institutional arrangements organizational practices collective and individual behaviour on things of importance to many of us work employment pay work environments learning participation and voice It is a unique volume of insights from leading researchers and research centres *Smart Cities Policies and Financing* John R. Vacca, 2022-01-19 *Smart Cities Policies and Financing Approaches and Solutions* is the definitive professional reference for harnessing the full potential of policy making and financial planning in smart cities It covers the effective tools for capturing the dynamic relations between people policies financing and environments and where they are most often useful and effective for all relevant stakeholders The book examines the key role of science technology and innovation STI especially in information and communications technologies in the design development and management of smart cities policies and financing It identifies the problems and offers practical solutions in implementation of smart infrastructure policies and financing *Smart Cities Policies and Financing* is also about how the implementation of smart infrastructure projects related to the challenges of the lack of financing and the application of suitable policies underlines the key roles of science technology and innovation STI communities in addressing these challenges and provides key policies and financing that will help guide the design and development of smart cities Brings together experts from academia government and industry to offer state of the art solutions for improving the lives of billions of people in cities around the globe Creates awareness among governments of the various policy tools available such as output based contracting public private partnerships

procurement policies long term contracting and targeted research funds in order to promote smart infrastructure implementation and encouraging the use of such tools to shape markets for smart infrastructure and correct market failures Ensures the inclusiveness of smart city projects by adequately addressing the special needs of marginalized sections of society including the elderly persons with disabilities and inhabitants of informal settlements and informal sectors Ensures gender considerations in the design of smart cities and infrastructure through the use of data generated by smart systems to make cities safer and more responsive to the needs of women Demonstrate practical implementation through real life case studies Enhances reader comprehension using learning aids such as hands on exercises checklists chapter summaries review questions and an extensive appendix of additional resources

Improving Workplace Learning Geraldine

Castleton, Rodney Gerber, Hitendra Pillay, 2006 Closely linked to the concepts of growth and globalisation is the increasing recognition being given to the importance of the workplace as a site of learning The value of the book rests in the fact that this framework does not have its foundations in just one academic discipline but rather provides a range of perspectives drawn from psychology social psychology sociology and critical theory The purpose is to move away from a unidimensional understanding of workplaces and workplace learning to provide a different standpoint from which to better appreciate the diversity and complexity of learning in the workplace This significant book is divided into four inter related sections with each section contributing to the evidence base referred to earlier by offering informed considerations of the following questions What kinds of contextual issues impact on workplace learning and what are the implications of these for improving workplace learning What kinds of knowledge are required for contemporary work and what implications are derived from these for improving workplace learning What models and case studies exist that reflect practices for improving workplace learning and What consideration of directions for future action to improve workplace learning can be made
