# Tragic Knowledge

**Otilia C. Anderson**

## **Tragic Knowledge:**

**Tragic Views of the Human Condition** Lourens Minnema, 2013-06-06 Can tragic views of the human condition as known to Westerners through Greek and Shakespearean tragedy be identified outside European culture in the Indian culture of Hindu epic drama In what respects can the Mahabharata epics and the Bhagavadgita's views of the human condition be called tragic in the Greek and Shakespearean senses of the word Tragic views of the human condition are primarily embedded in stories Only afterwards are these views expounded in theories of tragedy and in philosophical anthropologies Minnema identifies these embedded views of human nature by discussing the ways in which tragic stories raise a variety of anthropological issues issues such as coping with evil suffering war death values power sacrifice ritual communication gender honour injustice knowledge fate freedom Each chapter represents one cluster of tragic issues that are explored in terms of their particular Greek English Indian settings before being compared cross culturally In the end the underlying question is are Indian views of the human condition very different from Western views

**Tragedy in Ethics and Law** Timo Slotweg, 2025-10-02 This book explores the relationship between tragedy and the justice that is sought in moral philosophy and the law It shows how our moral and legal judgments can be seen as aesthetic or tragic judgments and it considers what kind of passion or vocation moves the science and scholarship of law It questions how democracy relates to the tragic dimension of existence and the conscience of so called democratic man Using Nietzsche as a point of departure these considerations fuel a tragic creative ethics as well as an artistic excellence that promises to be vital both in theory and also in the practice of democracy lawgiving and adjudication From Nietzsche's call to revive tragic thought to the voices of Pascal Kierkegaard Dostoevsky Buber and Tillich a new path unfolds one that reconnects law with life creativity and conscience This book is of interest to researchers advanced students and professionals interested in the relationship between aesthetics ethics and the basic foundations of law prior to a rationalist and positivist science of jurisprudence

**Oedipus Tyrannus** Charles Segal, 1993 Oedipus Tyrannus Tragic Heroism and the Limits of Knowledge 2 e is an accessible yet in depth literary study of Sophocles Oedipus Tyrannus Oedipus Rex the most famous Greek tragedy and one of the greatest masterpieces of world literature This unique volume combines a close scene by scene literary analysis of the text with an account of the play's historical intellectual social and mythical background and also discusses the play's place in the development of the myth and its use of the theatrical conventions of Greek drama Based on a fresh scrutiny of the Greek text this book offers a contemporary literary interpretation of the play including a readable nontechnical discussion of its underlying moral and philosophical issues the role of the gods the interaction of character fate and chance the problem of suffering and meaning and Sophocles conception of tragedy and tragic heroism This lucid guide traces interpretations of the play from antiquity to modern times from Aristotle to Hegel Nietzsche Freud Lacan Levi Strauss Girard and Vernant and shows its central role in shaping the European conception of tragedy and modern notions of the self This second edition draws on new approaches to

the study of Greek tragedy discusses the most recent interpretative scholarship on the play and contains an annotated up to date bibliography Ideal for courses in classical literature in translation Greek drama classical civilization theater and literature and arts Oedipus Tyrannus Tragic Heroism and the Limits of Knowledge 2 e will also reward general readers interested in literature and especially tragedy Social Studies--the Next Generation Avner Segal, Cleo H. Cherryholmes, Elizabeth E. Heilman, 2006 Social Studies The Next Generation broadens the imagination within social studies education by highlighting current cutting edge scholarship incorporating critical discourses Drawing on postmodern poststructural postcolonial and feminist theories often borrowed from cultural studies curriculum theory critical geography women s studies and queer studies the scholars contributing to this volume ask new questions about social studies use different methodologies to study the field and report findings with new forms of textualization This book is dialogic and even conversational ending with provocative responses from established social studies scholars and the editors and disturbs the given and the taken for granted in social studies research Tragedy and Civilization Charles Segal, 1999 Drawing on comprehensive analyses of all of Sophocles plays on structuralist anthropology and on other extensive work on myth and tragedy Charles Segal examines Sophocles both as a great dramatic poet and as a serious thinker He shows how Sophoclean tragedy reflects the human condition in its constant and tragic struggle for order and civilized life against the ever present threat of savagery and chaotic violence both within society and within the individual Tragedy and Civilization begins with a study of these themes and then proceeds to detailed discussions of each of the seven plays For this edition Segal also provides a new preface discussing recent developments in the study of Sophocles **Nietzsche's Reclamation of Philosophy** Kathleen J. Winiinger, 1997 Nietzsche is famous for rejecting a great many standard philosophical methods He does this on the basis of critical assessments of these methods Nietzsche s historical critiques are justly famous but the question of what his new philosophy is often not explored The important issue is what Nietzsche believed were some of the possibilities left for philosophy if his criticisms of previous philosophies were correct This book is called the Reclamation of Philosophy because Nietzsche is engaged in a task of reappropriating certain characteristics of past philosophies into his work He reclaims philosophical reflection as practiced by French moralists some Presocratic philosophers and some German thinkers As a mature writer he is no longer interested in philosophy simply as a place to display skill in analytic or logical reasoning He is interested in a philosophy which can address the cultural and personal issues of people constructing themselves in their world He is particularly interested in using philosophical talents to help to discover the values implicit in practices and assumptions which people hold These values are not just moral and aesthetic they are also epistemologically relevant Nietzsche s Reclamation of Philosophy elucidates what Nietzsche has to say about value particularly what he has to say about moral value by looking at his views of aesthetic value **Nietzsche's Anthropic Circle** George J. Stack, 2005 Nietzsche s Anthropic Circle is an internal analysis and interpretation of Nietzsche s critical uncovering of anthropomorphic

truth in language and science as well as his later use of anthropic analogies and transferences in his imaginative perspectival interpretation a hybrid of art and science of a universal immanent will to power in nature Both the relationship of Nietzsche to Kant's analysis of knowledge in the Critique of Pure Reason and his absorption of a dynamic theory of nature are explored in some detail A crucial distinction between Nietzsche's perspectival concept of knowledge and perspectival interpretation is thoroughly discussed against the background of recurring analyses of his critique of knowledge and truth It is shown that instrumental fictionalism was adopted by Nietzsche in order to put in question the pure objectivism of science This links an aspect of his thought to the domain of recent American philosophy of science The anticipatory relationship between Nietzsche's proto-structuralist analysis of language and recent linguistic structuralism as well as his affiliation with evolutionary epistemology is explored In the concluding portion of this inquiry it is contended that Nietzsche's psychology of a will to power in human drives thought and behavior is at least theoretically defensible However it must be segregated from the extension of a will to power to the cosmos There is a strong concluding argument offered that seeks to demonstrate that the so-called metaphysics of the will to power is an artfully constructed exoteric fable designed to retrieve a sense of the humanization of the world in face of a de-anthropomorphic world picture

George Stack is Professor Emeritus of Philosophy at the State University College of New York at Brockport and the author of several books dealing with the philosophy of Friedrich Nietzsche

**Faust, a Tragedy** Johann Wolfgang von Goethe, 1890      **Atrocities in Russian Prisons** Francis de Pressensé, 1913      *Faust, a tragedy, tr. in the original metres by B. Taylor* Johann Wolfgang von Goethe, 1887

*Churchmanship and Labour*, 1906      **The National Magazine**, 1912      **Unconquered** Maud Diver, 1917      **The World Crisis, 1915** Winston Churchill, 1923
