

Key features of the controlled economy

4. Much investment is not used on consumer goods but on military goods (army tanks, guns, space exploration). This was especially the case in Russia and China;
5. Citizens live in a highly regimented society, with gov't officials, police or even soldiers on nearly every street corner – even on farms, to check on production
6. Oppression, high unemployment and poverty are prevalent;
7. Tightly controlled (and often poor) economic and social conditions tend to result in de-motivation, disaffection and ultimately defection of citizens and a brain drain.

The Controlled Economy:

The Controlled Economy (Routledge Revivals) James E. Meade, 2012-11-12 First published in 1971 this volume applies the tools of static and of dynamic analysis outlined in *The Stationary Economy* and *The Growing Economy* to the control of a dynamic economy This involves a discussion of subjects such as the theory of indicative planning and the planning by the government of its monetary fiscal and incomes policies for the purposes of the short run stabilization of the economy and of ensuring the best long run use of the community's resources Special emphasis is laid on the planning of such policies in conditions in which many future events remain inevitably uncertain This book considers these issues in relation to a competitive free enterprise economy and little or no reference is made to problems of monopoly or of distinctions between social and private costs and benefits due to indivisibilities and externalities in economic life *Administration of the Antidumping Act of 1921* United States.
