The Cost In Pentecost:

The Cost in Pentecost Joseph E. Orsini, 1977 Music, Medicine and Religion at the Ospedale Di Santo Spirito in Rome Naomi J. Barker, 2024 Explores the use of music as therapy and shows how it operated in the hospital's institutional, social and historical contexts undergoing change in response to broader cultural and religious movements This book explores connections between the physical care of the sick based on the study of medicine concepts of healing founded on religious thought and the practice of music at the Ospedale di Santo Spirito Hospital of the Holy Spirit in Rome The hospital was a unique institution that was regulated by the Roman Catholic Church but simultaneously reflected the significant shifts in scientific thought emerging during the period that coincided with post Tridentine reforms in the church The volume discusses the hospital's foundation, architecture and links with the papacy It also reflects on the then acceptable ways of knowing informed by religious concerns and medical traditions The tripartite relationship between religion, medicine and music within the institution was complex At times they existed side by side at others they intersected Drawing on extensive archival research such as financial records, decrees, records of apostolic visits and inventories as well as surviving musical sources, printed and manuscript, the book makes connections between intellectual beliefs about music and actual musical practices It explores the early use of music as therapy and investigates the musical ideals and practices of the monastic regime which ran the hospital In a wider sense the book shows how music operated in the hospital's institutional, social and historical contexts and how it underwent change over time in response to broader cultural and religious movements
