The Grand Complication Allen Kurzweil,2001-08-08 With a boss threatening to exile him to driving a bookmobile in Amish Country and a headstrong wife whose erotic pop up books fail to revive the couples lost intimacy Alexander retreats to a world of private annotation Enter Henry James Jesson III a collector with an improbably literary name who shares a number of Alexanders unconventional interests Soon Jesson hires Alexander for some after hours research As his search advances the librarian realizes there are many more secrets in Jessons life than the ones found in his dazzling Manhattan salon A Grand Complication Stacy Perman,2013-02-19 The race between two ambitious complicated men in the early 1900s to create the most extravagant complicated timepiece ever Grand Complications , **Confessions of the Pricing Man** Hermann Simon,2015-10-20 The world s foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer In all walks of life we constantly make decisions about whether something is worth our money or our time or try to convince others to part with their money or their time Price is the place where value and money meet From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store price is the most powerful and pervasive economic force in our day to day lives and one of the least understood The recipe for successful pricing often sounds like an exotic cocktail with equal parts psychology economics strategy tools and incentives stirred up together usually with just enough math to sour the taste That leads managers to water down the drink with hunches and rules of thumb or leave out the parts with which they don t feel comfortable While this makes for a sweeter drink it often lacks the punch to have an impact on the customer or on the business It doesn t have to be that way though as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes A world renowned speaker on pricing and a trusted advisor to Fortune 500 executives Simon s lifelong journey has taken him from rural farmers markets to a distinguished academic career to a long second career as an entrepreneur and management consultant to companies large and small throughout the world Along the way he has learned from Nobel Prize winners and leading management gurus and helped countless managers and executives use pricing as a way to create new markets grow their businesses and gain a sustained competitive advantage He also learned some tough personal lessons about value how people perceive it and how people profit from it In this engaging and practical narrative Simon leaves nothing out of the pricing cocktail but still makes it go down smoothly and leaves you wanting to learn more and do more as a consumer or as a business person You will never look at pricing the same way again

**A Grand Complication** Stacy Perman,2013-02-19 Two wealthy and powerful men engage in a decades long contest to create and possess the most remarkable watch in history James Ward Packard of Warren Ohio was an entrepreneur and a talented engineer of infinite curiosity a self made man who earned millions from his inventions including the design and manufacture of America s first luxury car the elegant and storied Packard Henry Graves Jr was the very essence of blue

blooded refinement in the early 1900s son of a Wall Street financier a central figure in New York high society and a connoisseur of beautiful things especially fine watches Then as now expensive watches were the ultimate sign of luxury and wealth but in the early twentieth century the limitless ambition wealth and creativity of these two men pushed the boundaries of mathematics astronomy craftsmanship technology and physics to create ever more ingenious timepieces In any watch features beyond the display of hours minutes and seconds are known as complications Packard and Graves spurred acclaimed Swiss watchmaker Patek Philippe to create the Mona Lisa of timepieces a fabled watch that incorporated twenty four complications and took nearly eight years to design and build For the period it was the most complicated watch ever created For years it disappeared but then it surfaced at a Sotheby s auction in 1999 touching off a heated bidding war shattering all known records when it fetched 11 million from an anonymous bidder New York Times bestselling author Stacy Perman takes us from the clubby world of New York high society into the ateliers of the greatest Swiss watchmakers and into the high octane often secretive subculture of modern day watch collecting With meticulous research vivid historical details and a wealth of dynamic personalities A Grand Complication is the fascinating story of the thrilling duel between two of the most intriguing men of the early twentieth century Above all it is a sweeping chronicle of innovation the desire for beauty and the lengths people will go to possess it **The Public** ,1907 **Proceedings - Grand Council of Royal and Select**
