The Grand Strategies of Great Powers Tudor A. Onea, 2020-08-05 What is grand strategy and what is it good for What are great powers and which states are great powers today What are the grand strategies available to great powers What are the conditions under which a certain strategy is suitable and when should it be rejected What are the factors affecting the success or failure of a given grand strategy The present volume provides answers to these questions by introducing a typology of great power grand strategies as strategies of rising status quo and declining powers as well as through historical illustrations of each type The reader is thus exposed to strategies such as divide and conquer bidding your time opportunity strike primacy semi detachment concert and appeasement through the experiences of leaders such as Bismarck Peter the Great Metternich Deng Xiaoping Neville Chamberlain and Stalin This analysis is then brought to bear on present developments in the grand strategies of the United States China and Russia The volume should be of interest to both

the academic and foreign policy making communities and in particular to students of international relations diplomacy history and current international affairs The Politics of Energy Steve Vanderheiden,2013-09-13 This book brings together leading scholars on the politics of energy examining the natural resources and developing technologies that are essential to its production and the various public and private factors affecting its use along with the ecological consequences of both Section One examines the looming challenges posed by continuing dependence upon oil as a primary energy source including peak oil scenarios and the social and political consequences of resource extraction upon the developing world Section Two considers proposals to dramatically increase nuclear power production as a means to reduce carbon emissions with both the risks and potential of this nuclear option carefully weighed Although many tout renewable energy sources for their environmental benefits Section Three calls attention to several potential problems with large scale renewable energy development and the dilemmas that they have caused for would be supporters of such efforts Finally Section Four weighs the prospects for developing sustainable energy systems on the ground including conservation measures that reduce energy demand and system wide energy policy efforts Together these essays demonstrate the importance of sound energy policy along with the numerous obstacles to developing and implementing it This book was originally published as a special issue of Environmental Politics

The Bankers' Magazine, and Statistical Register ,1886 **The Grand Plan** Shirley Goleski,2013-08 The Grand Plan tells what a wonderful life waits for us The time has come for civilization to cease fighting over lands and places to live There is a planet close by waiting for us We will be the Monarch Butterflies of the human race We will begin our journey and our descendants will finish it for us This is not to say we won t reach our first destination we will many times over There isn t anything too complicated for us the human society to accomplish This body we occupy in which our brain also lives is engineered in such a manner that it enables us to create out of the things that exist what we need for a comfortable living Mars is available for us to use We can copy what we have here on this planet Earth We can continue on from what we have instead of starting over There is a Grand Plan for the Human Race We are not here by accident We have been coddled and shaped for a very special reason We are the foundation for a Grand Plan It s time to put on our thinking cap Let s travel back to the caves discovered by someone the caves showing the drawings of the Astronauts and their vehicles Humans have come this close to fulfilling the Grand Plan before We can see by the drawings we have tried this at least one other time But they waited too long to make a move and as a result didn t have enough time to move as many people as they needed for their future so only the Astronauts and their families were able to leave their home planet All of their knowledge was forgotten while the few humans struggled to survive Let s not let that happen again *Digest* ,1923
