broad engagement with the arts Weldon Kees and the Arts at Midcentury is the first book to reflect the full range and reach of Kees's artistic activities Bringing together writers from various disciplines art historians poets literary critics curators and cultural scholars including Dore Ashton James Reidel Dana Gioia and Stephen C Foster this volume offers a wide variety of perspectives through which to evaluate the meaning and significance of Kees's achievement Although the essays themselves partake of the diversity of Kees's impact on the culture all agree on one fundamental point any history of postwar American culture that neglects Kees's multifaceted contribution is ultimately incomplete
